# Hey!

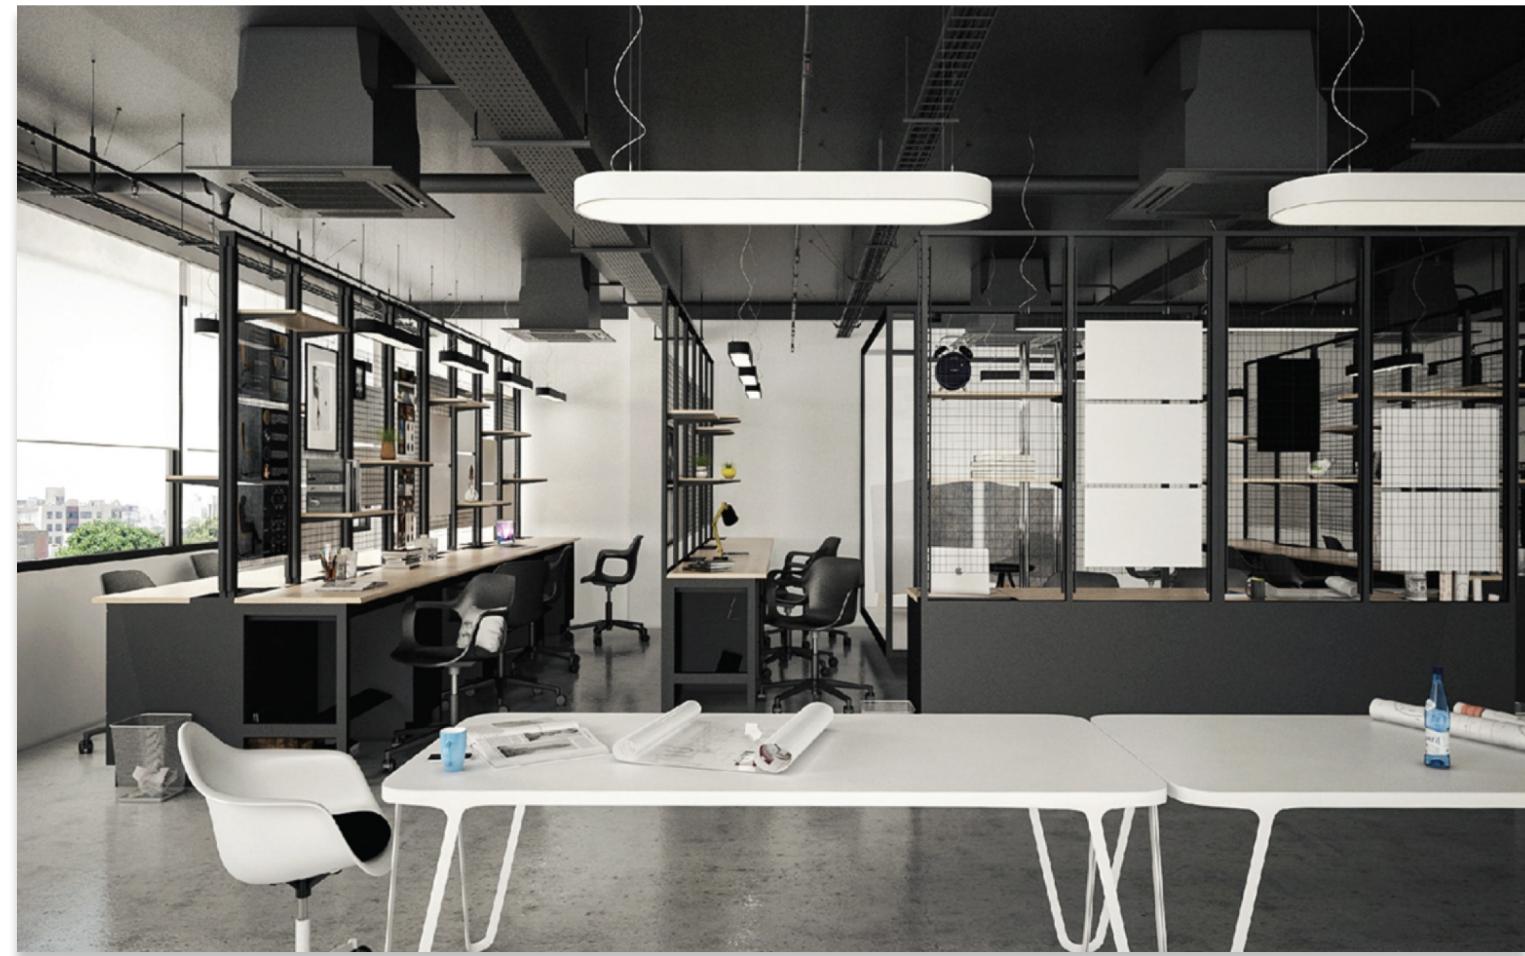

I am Kevika Sharma. I have always been fascinated by art, culture, storytelling and design, which leads me to explore progressively multiple possibilities & opportunities in life.

This portfolio is a collection of artworks and design projects (both personal and professional) which I have learnt over time (mostly self-taught).

*I would love for you to take a look at my world of design, aesthetics, imagination, colors & my obsession for art..*

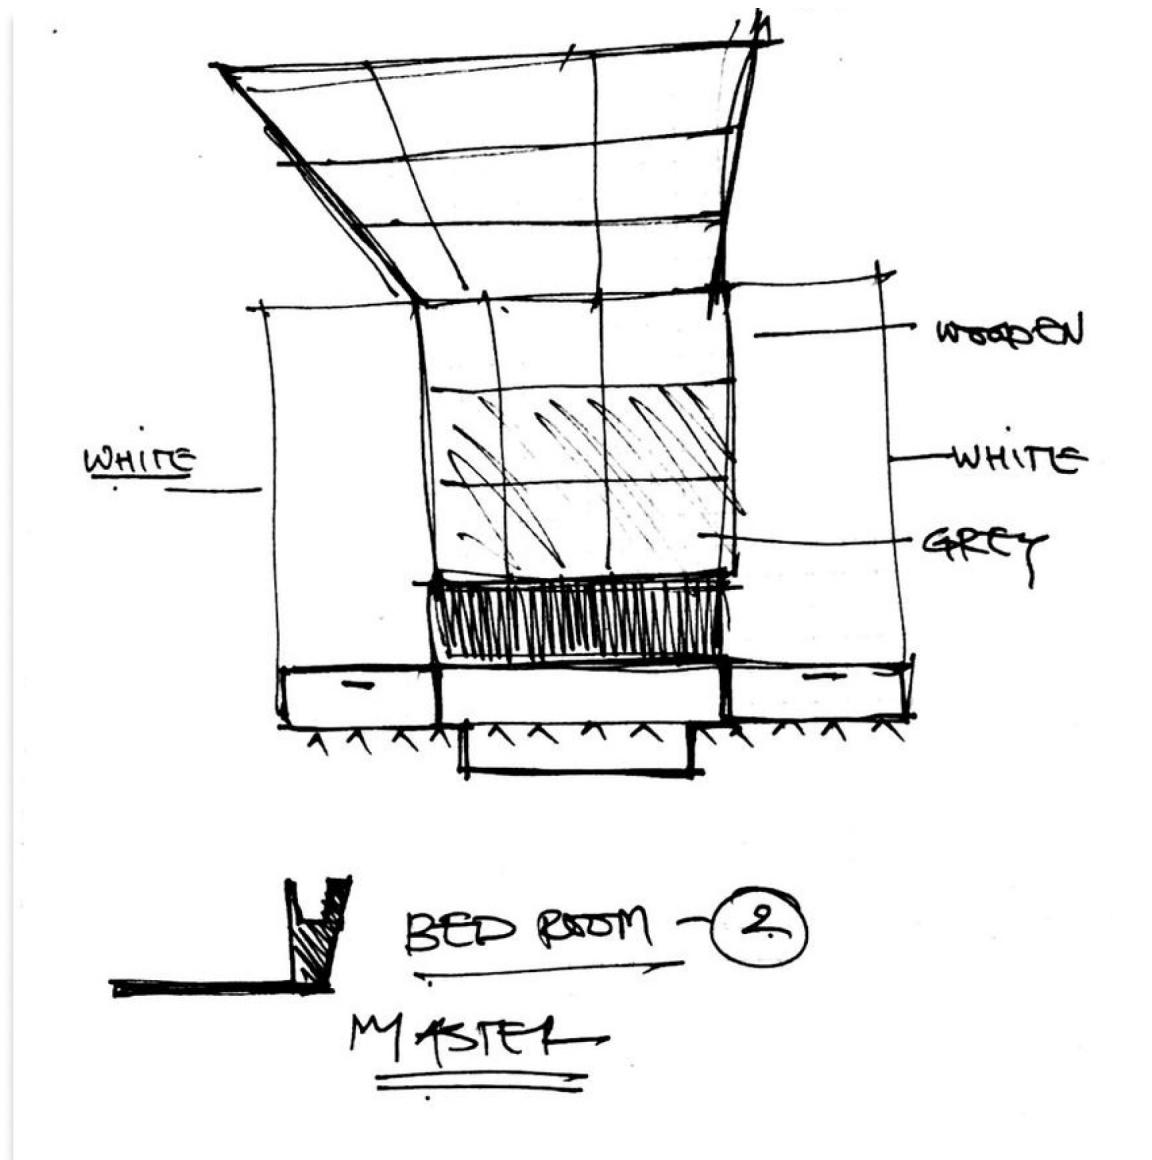

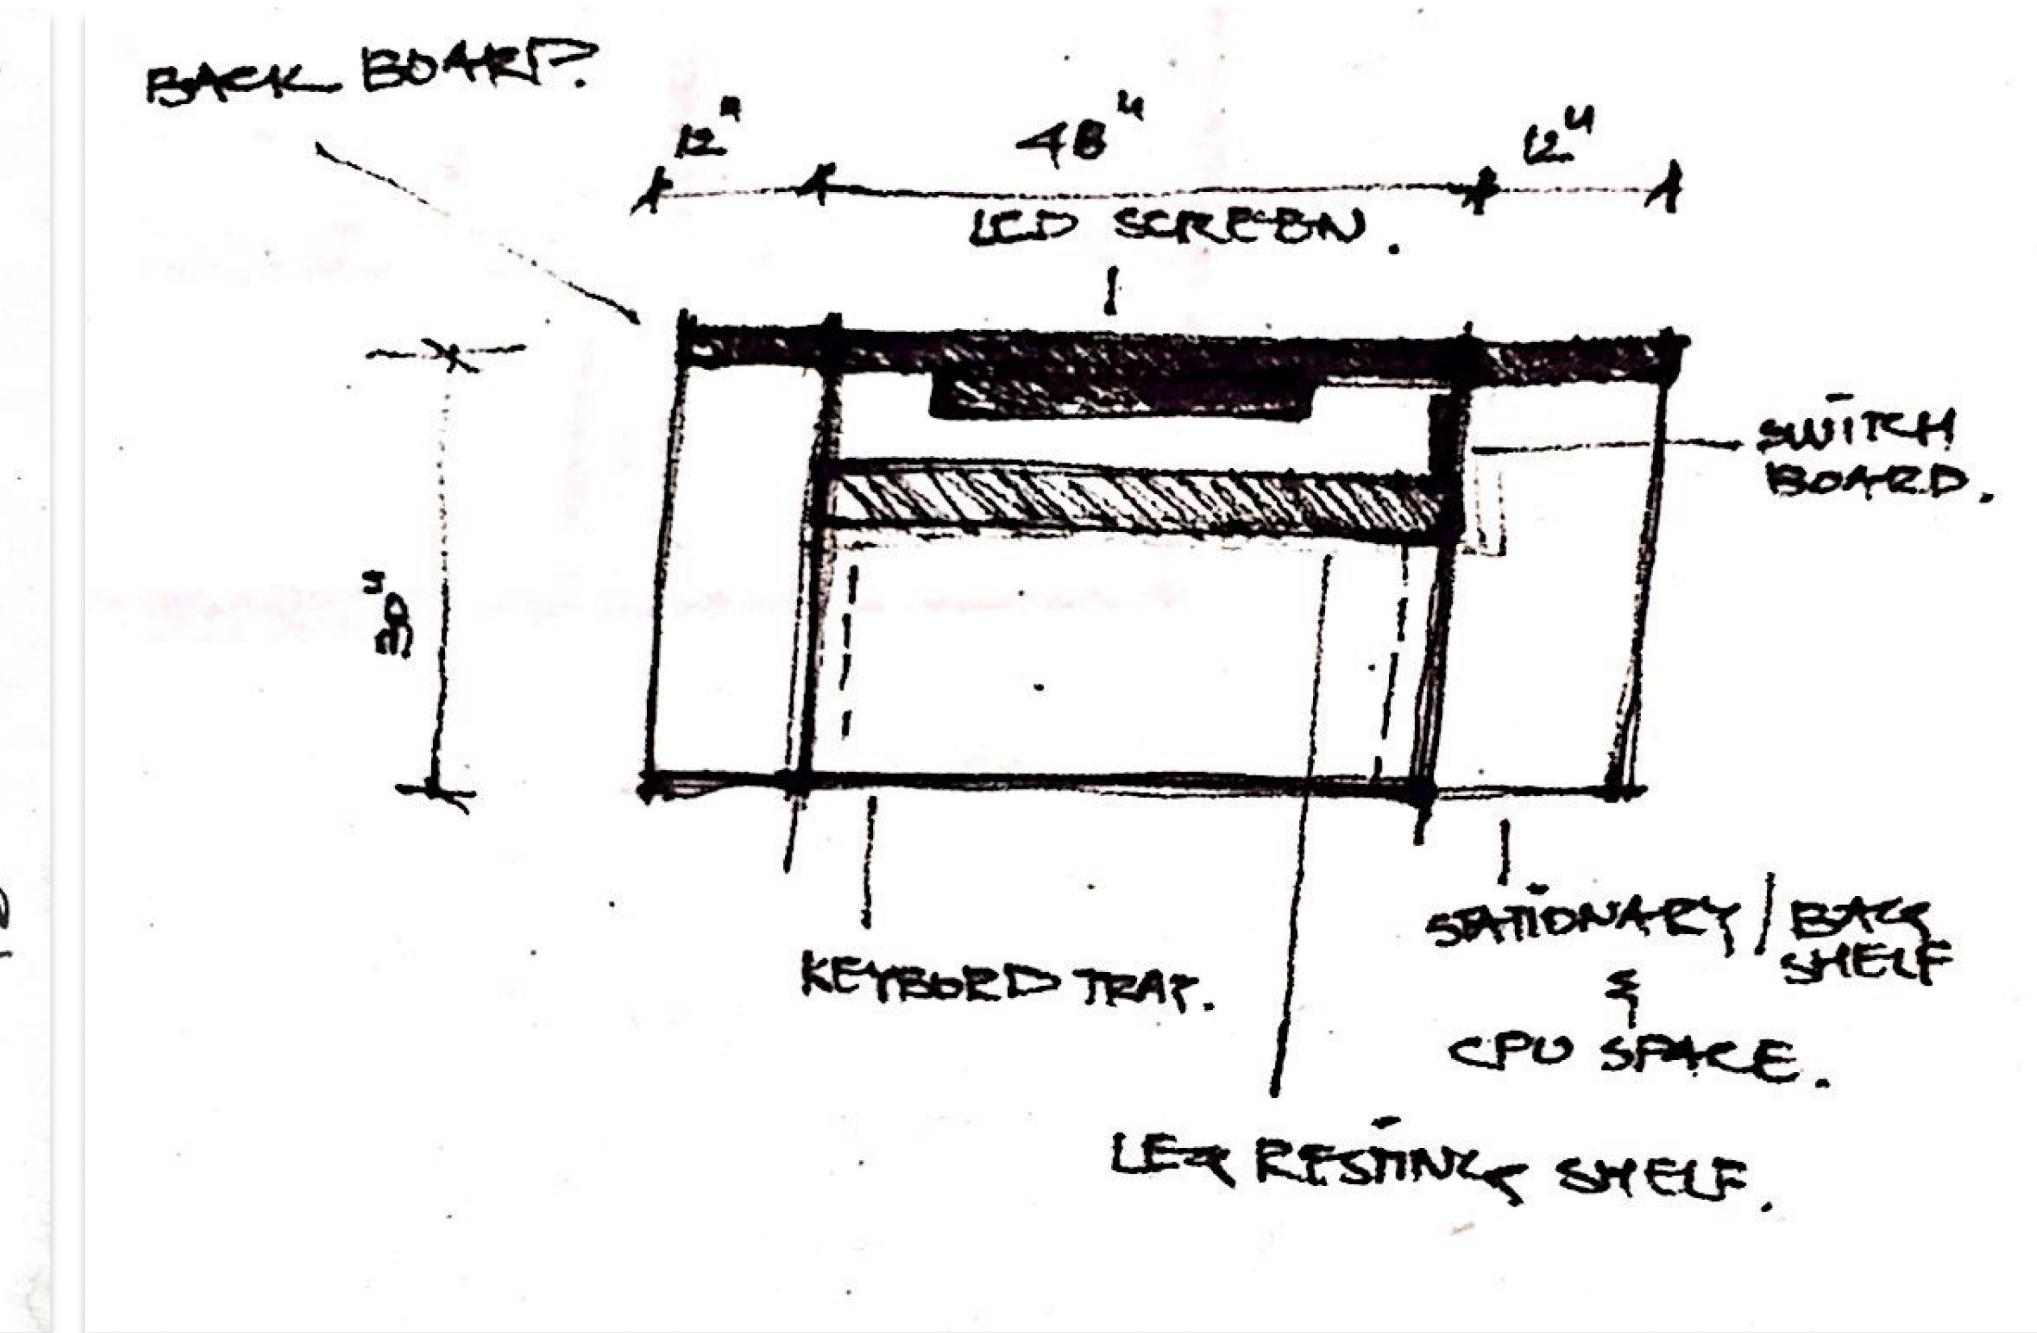

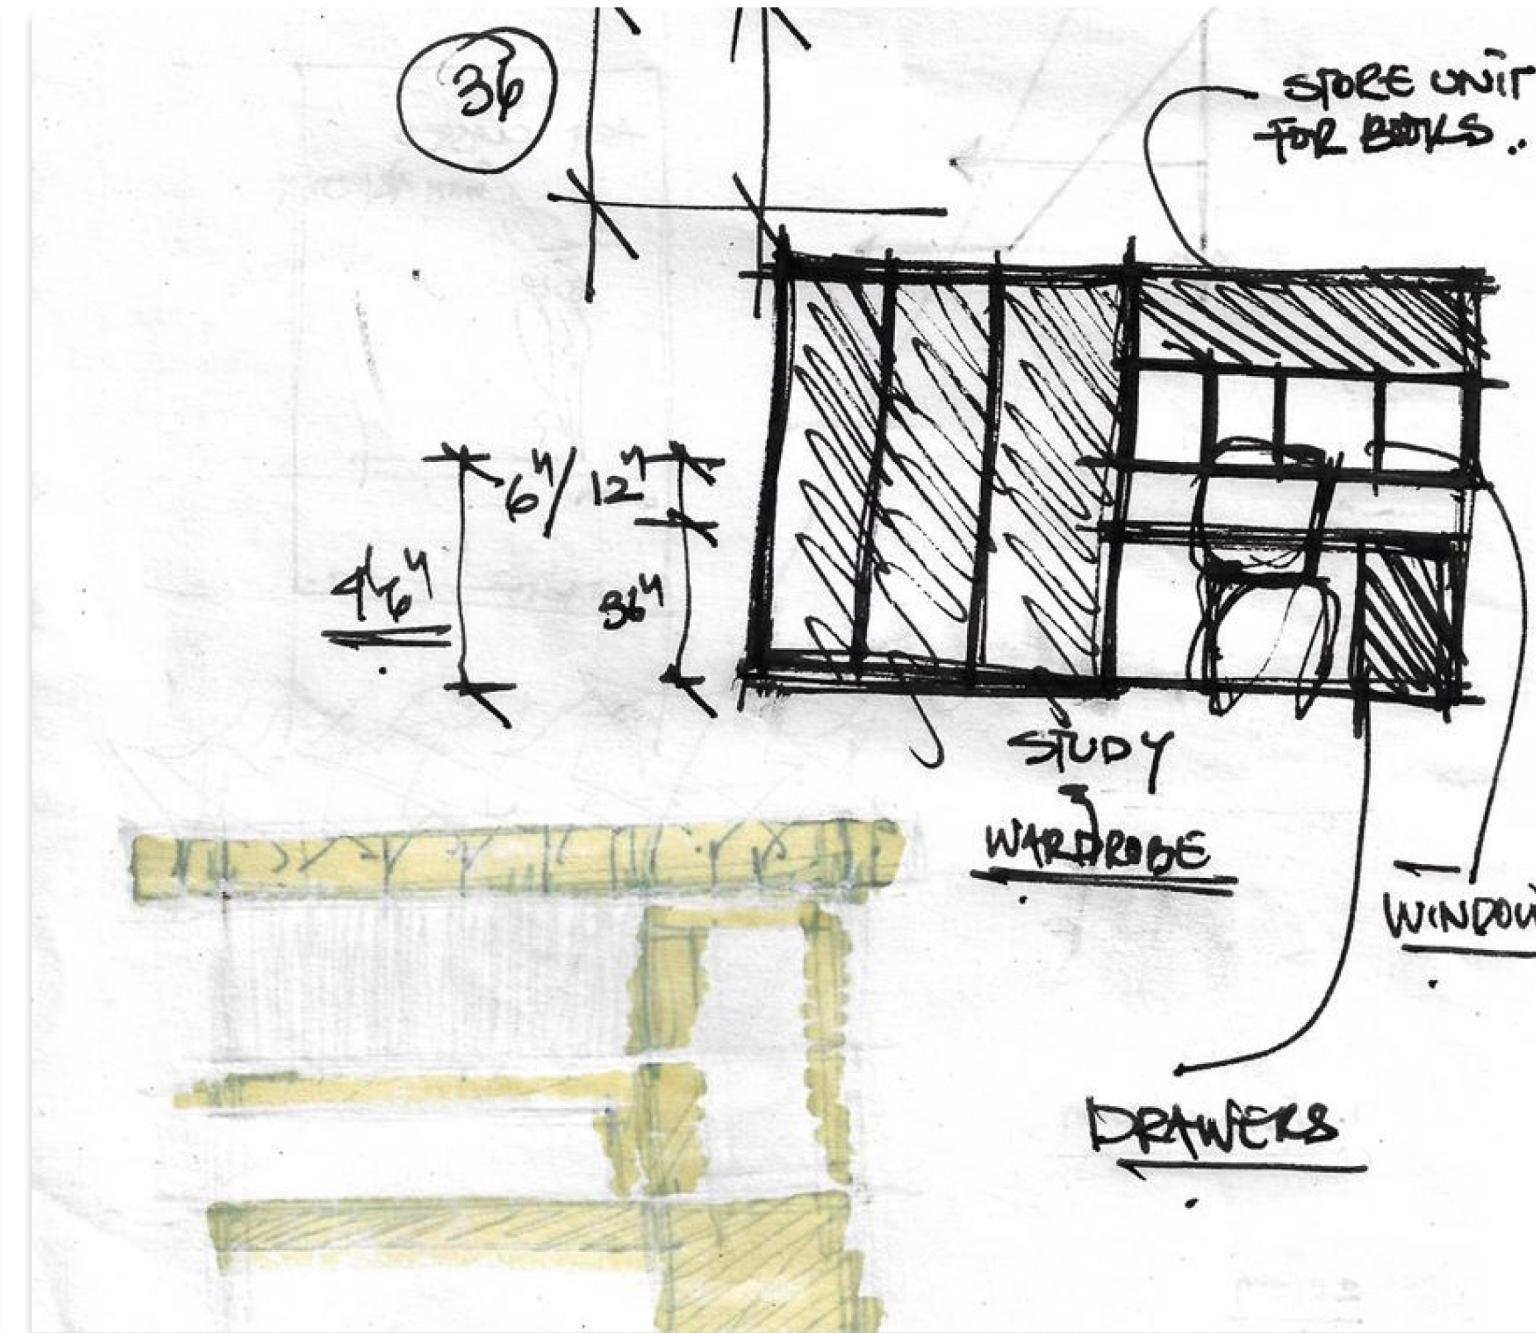

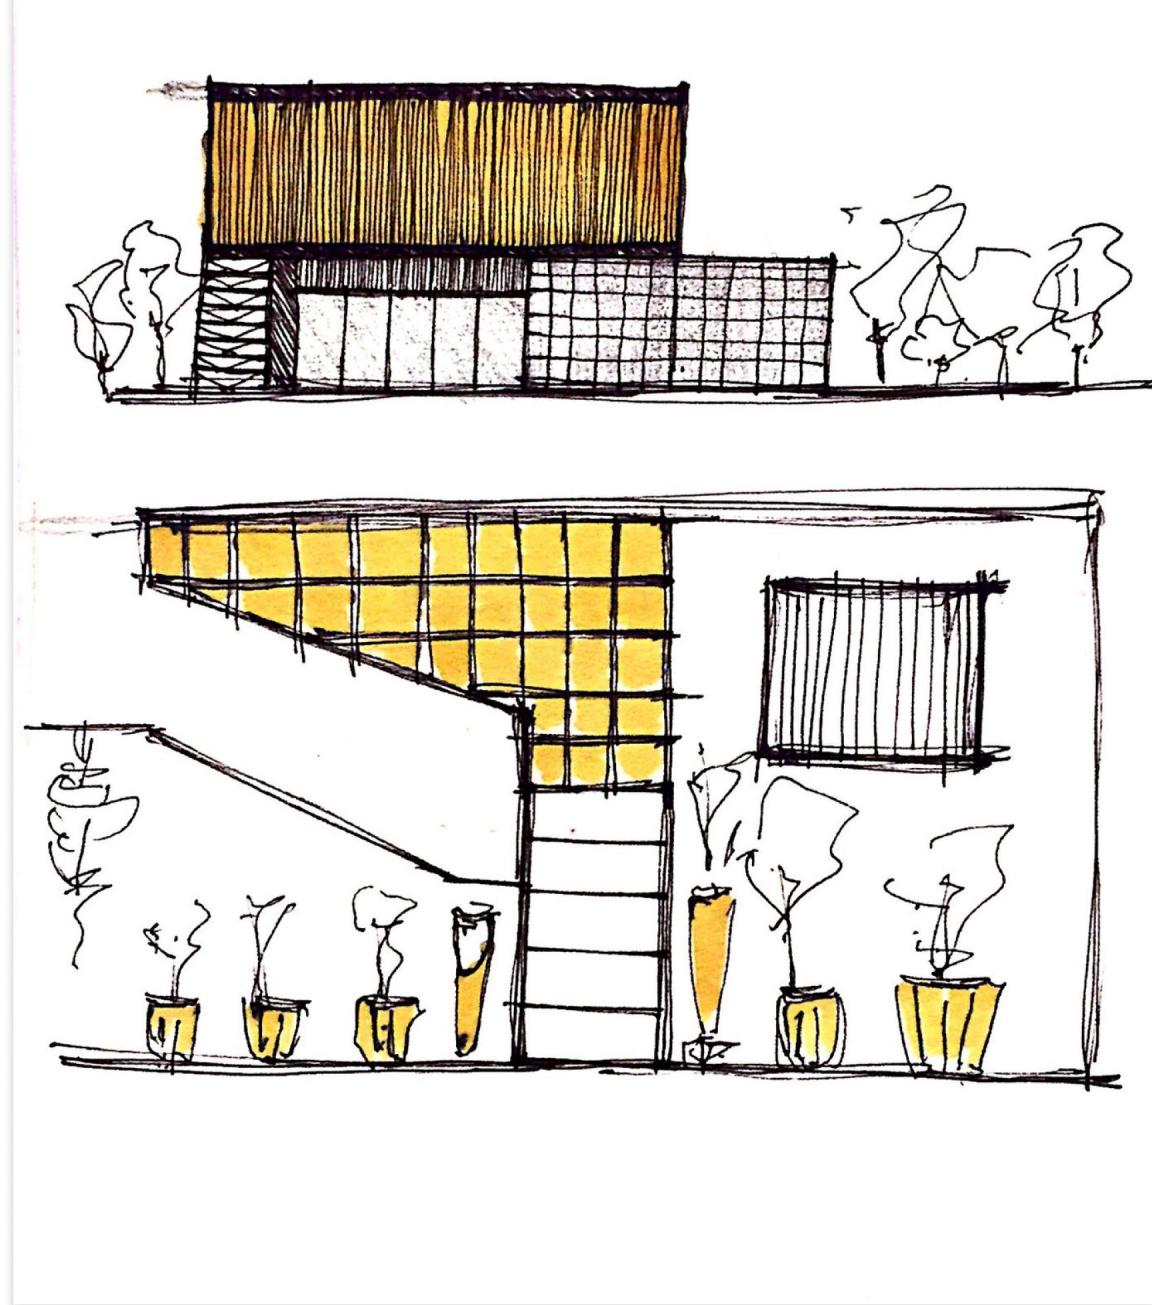

Let's Start 

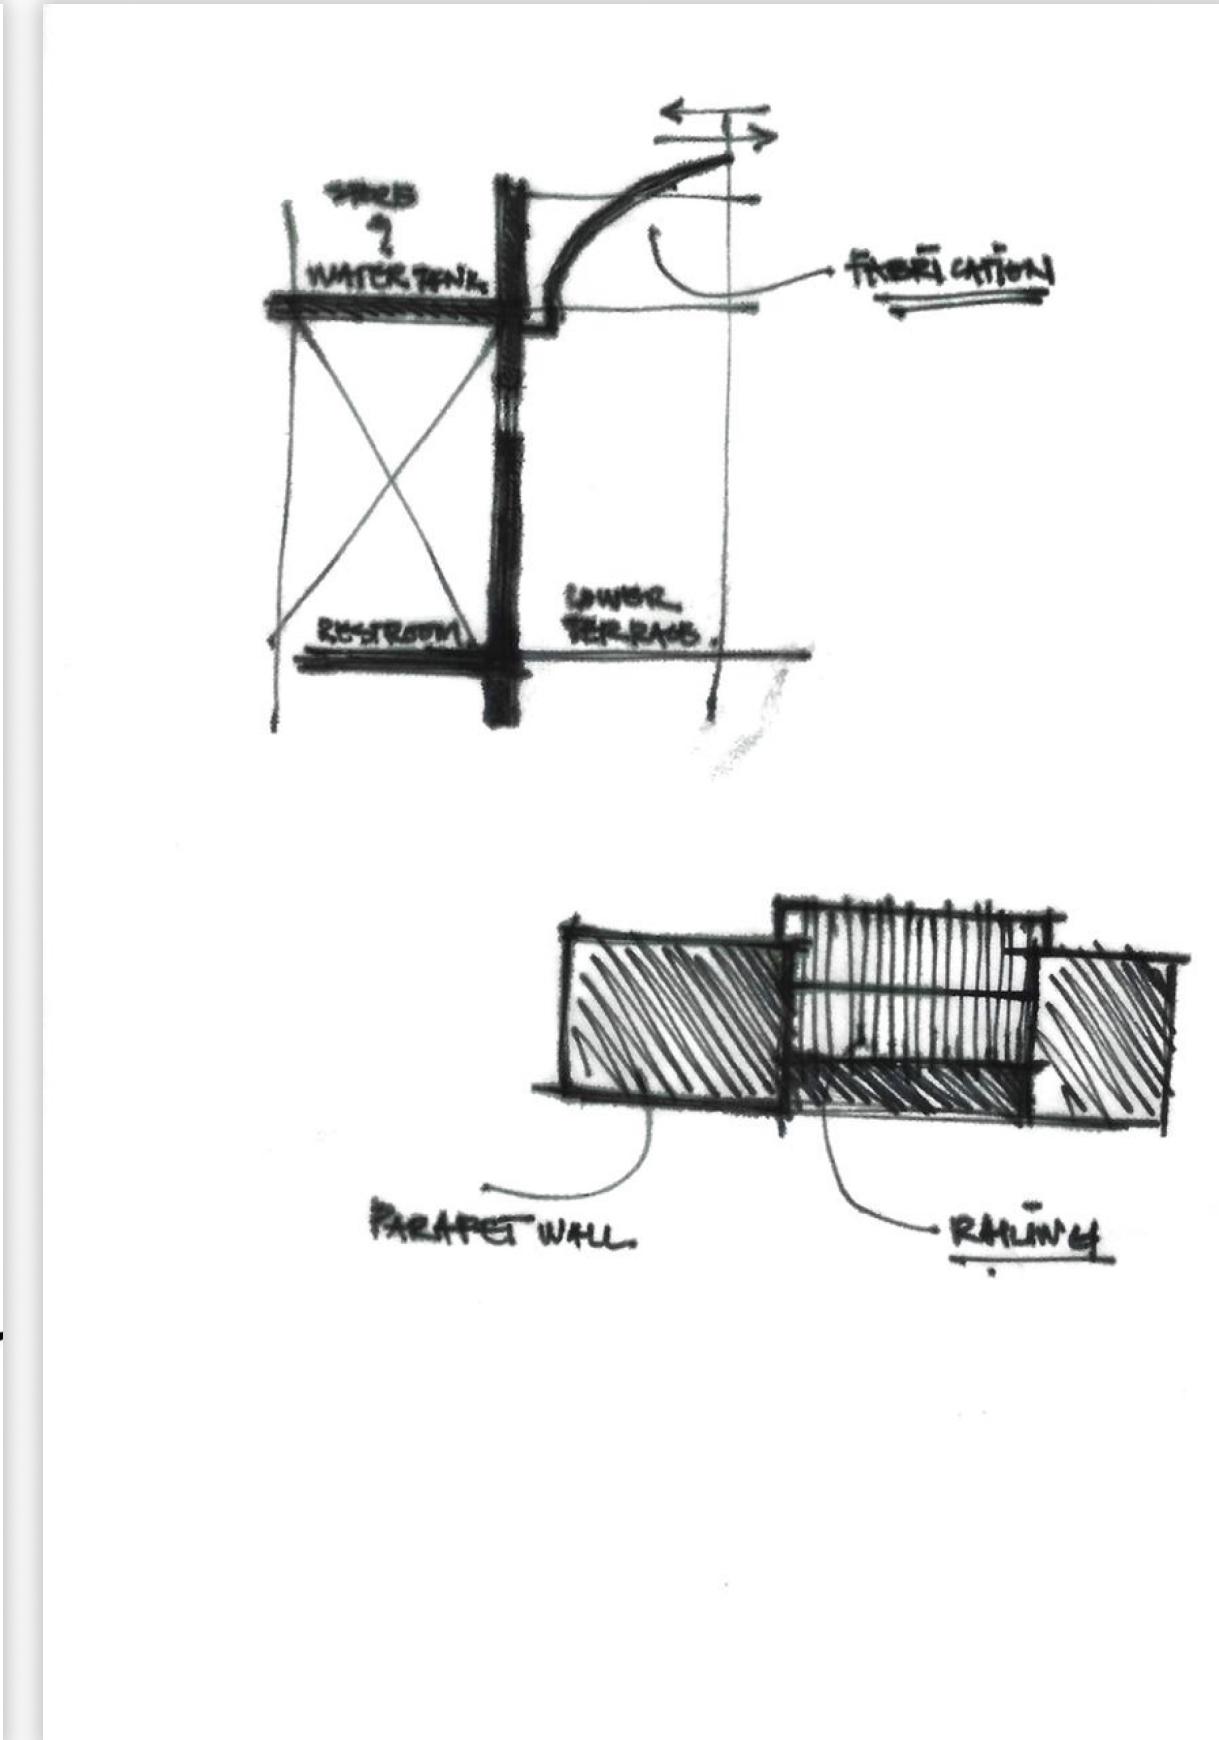

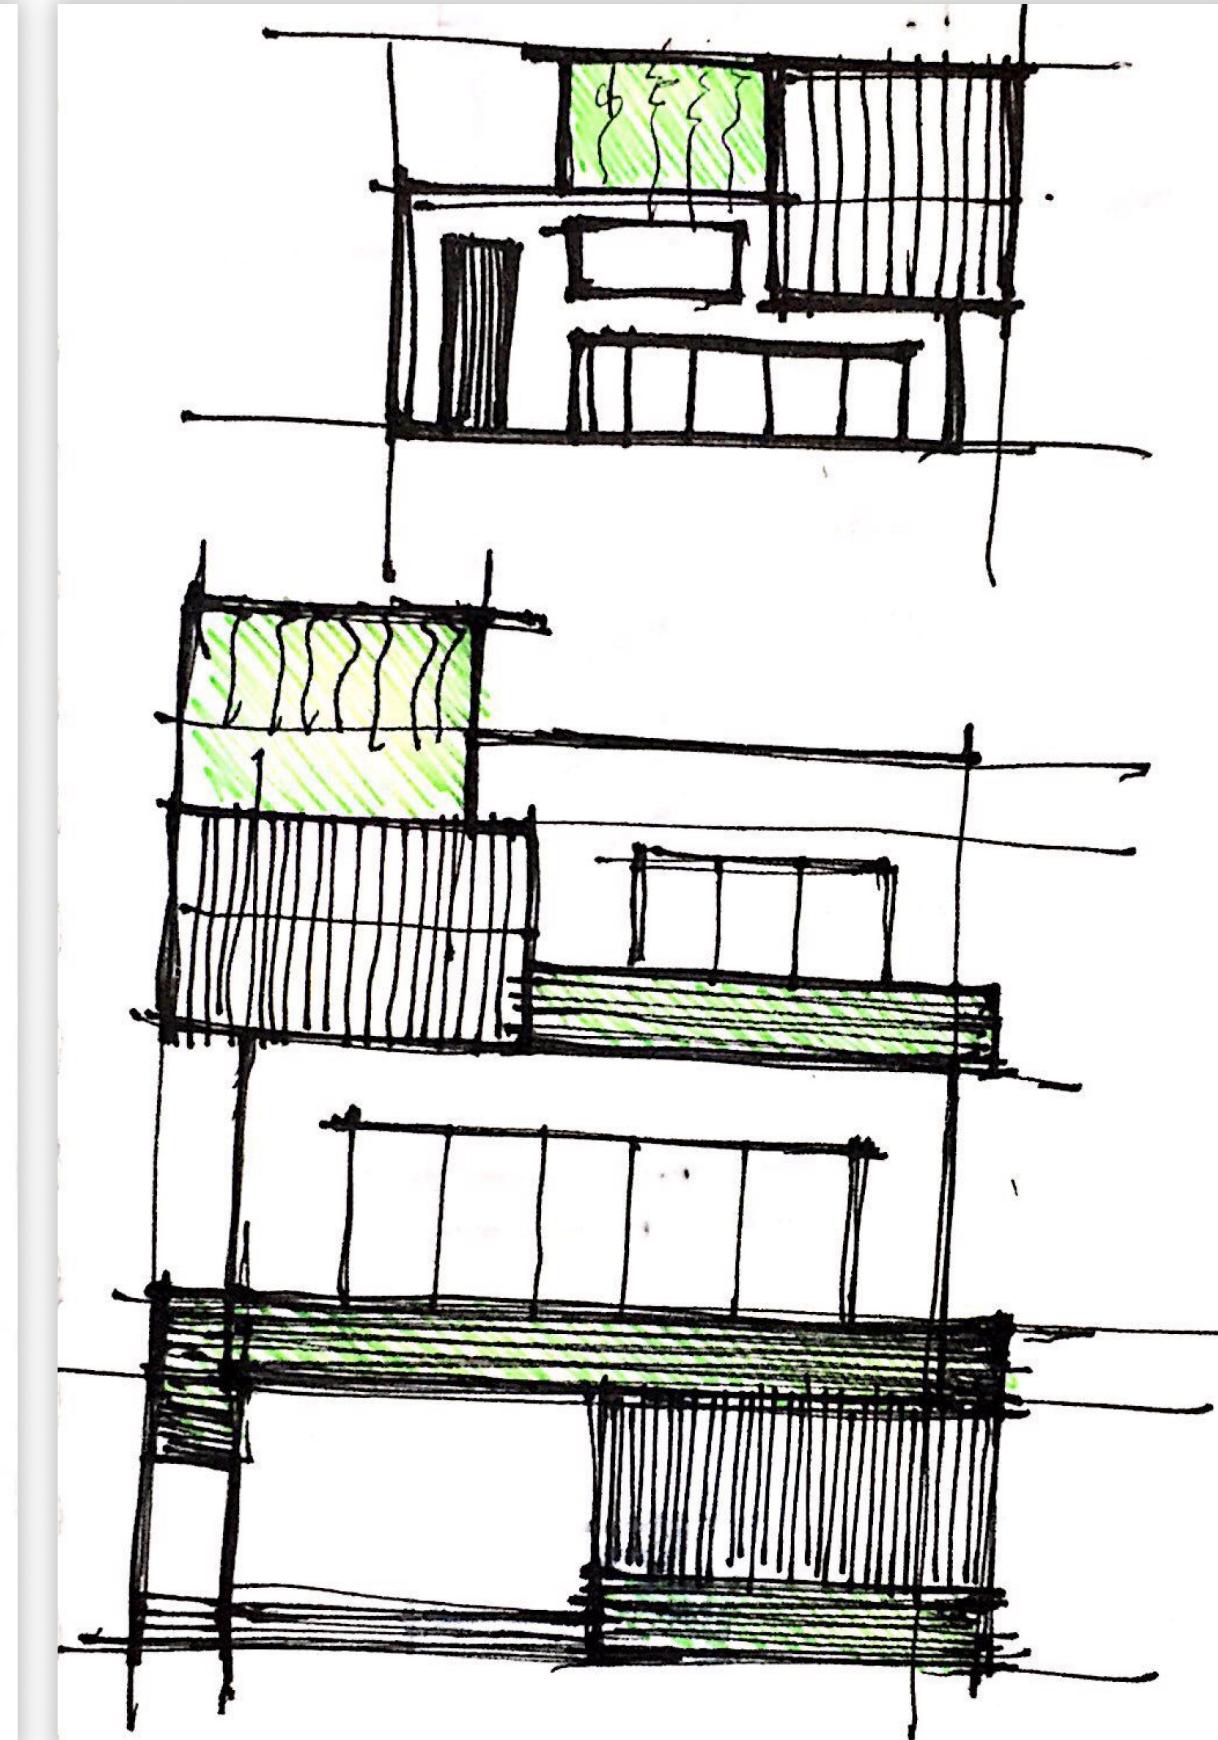

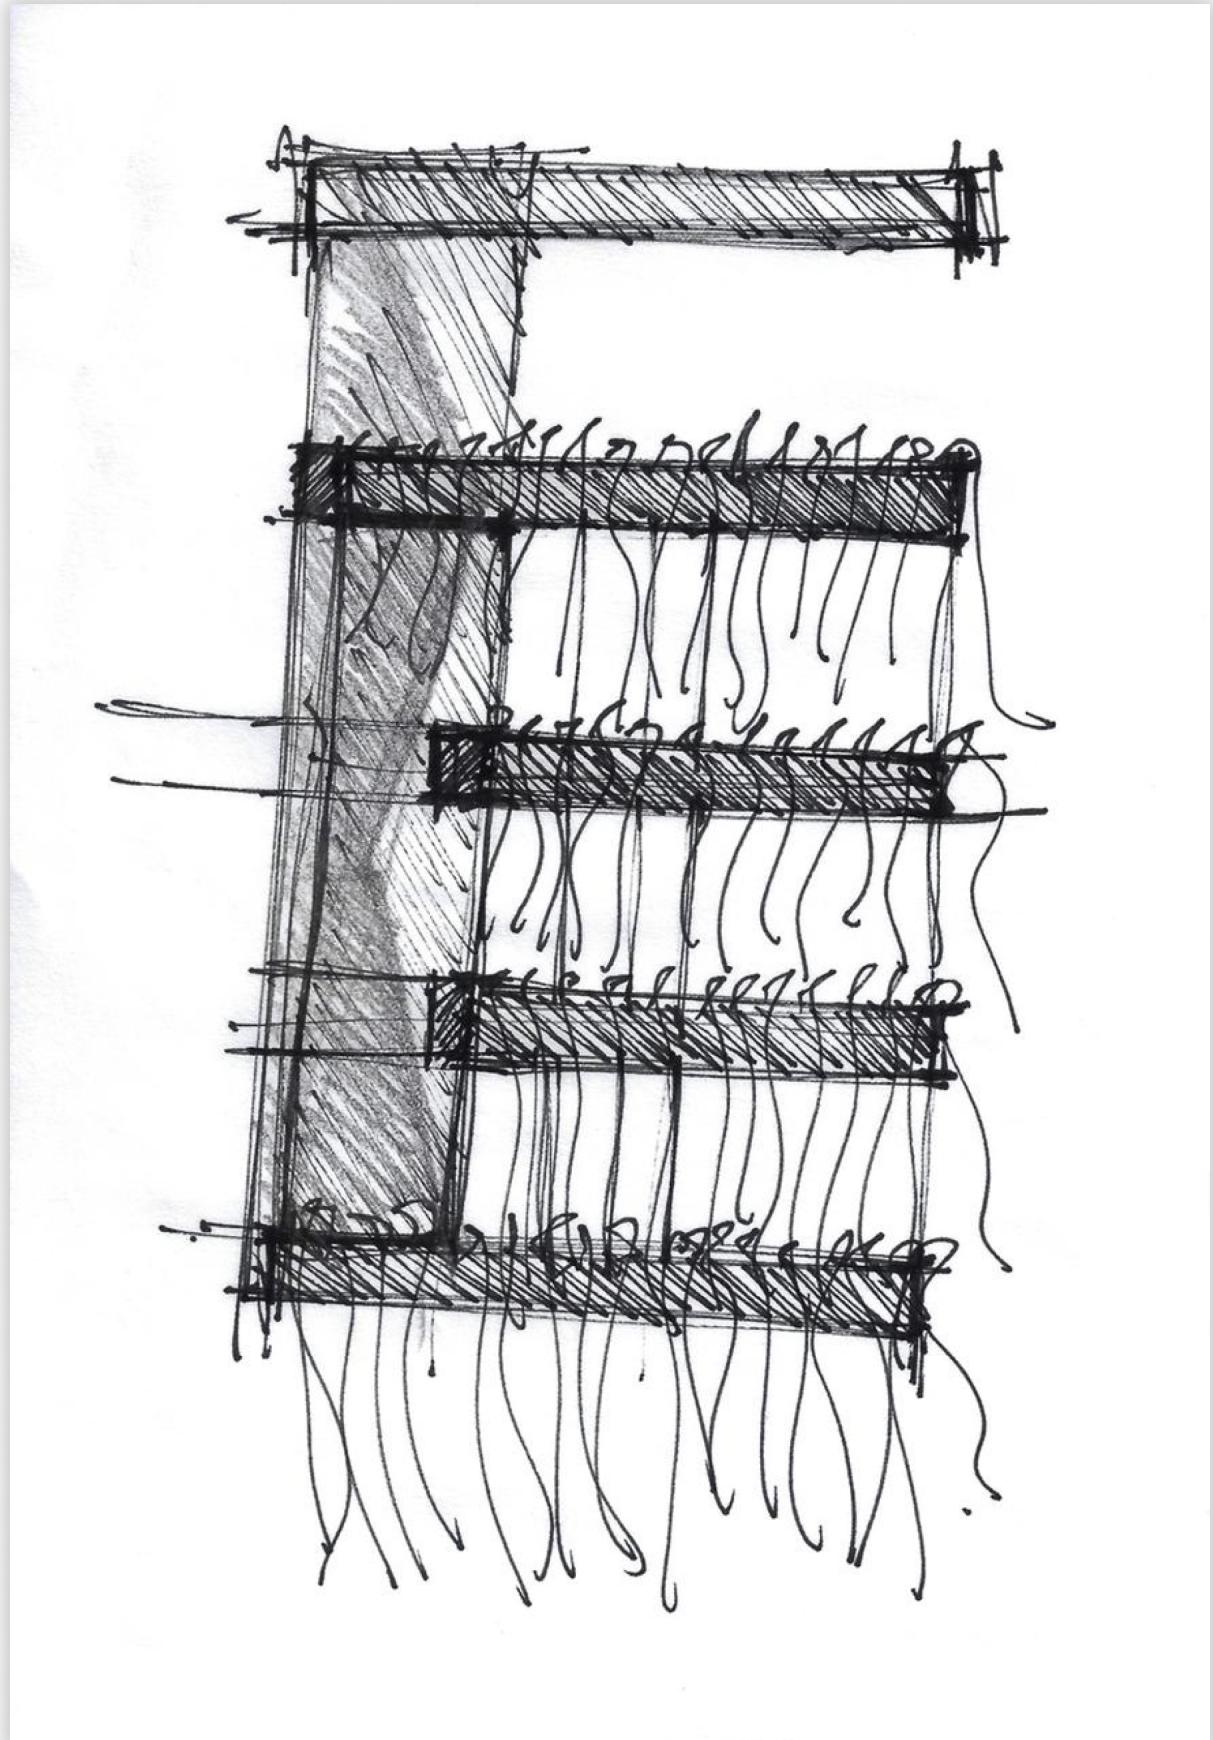

# MOOD BOARDING

# WIREFRAME DRAFTS

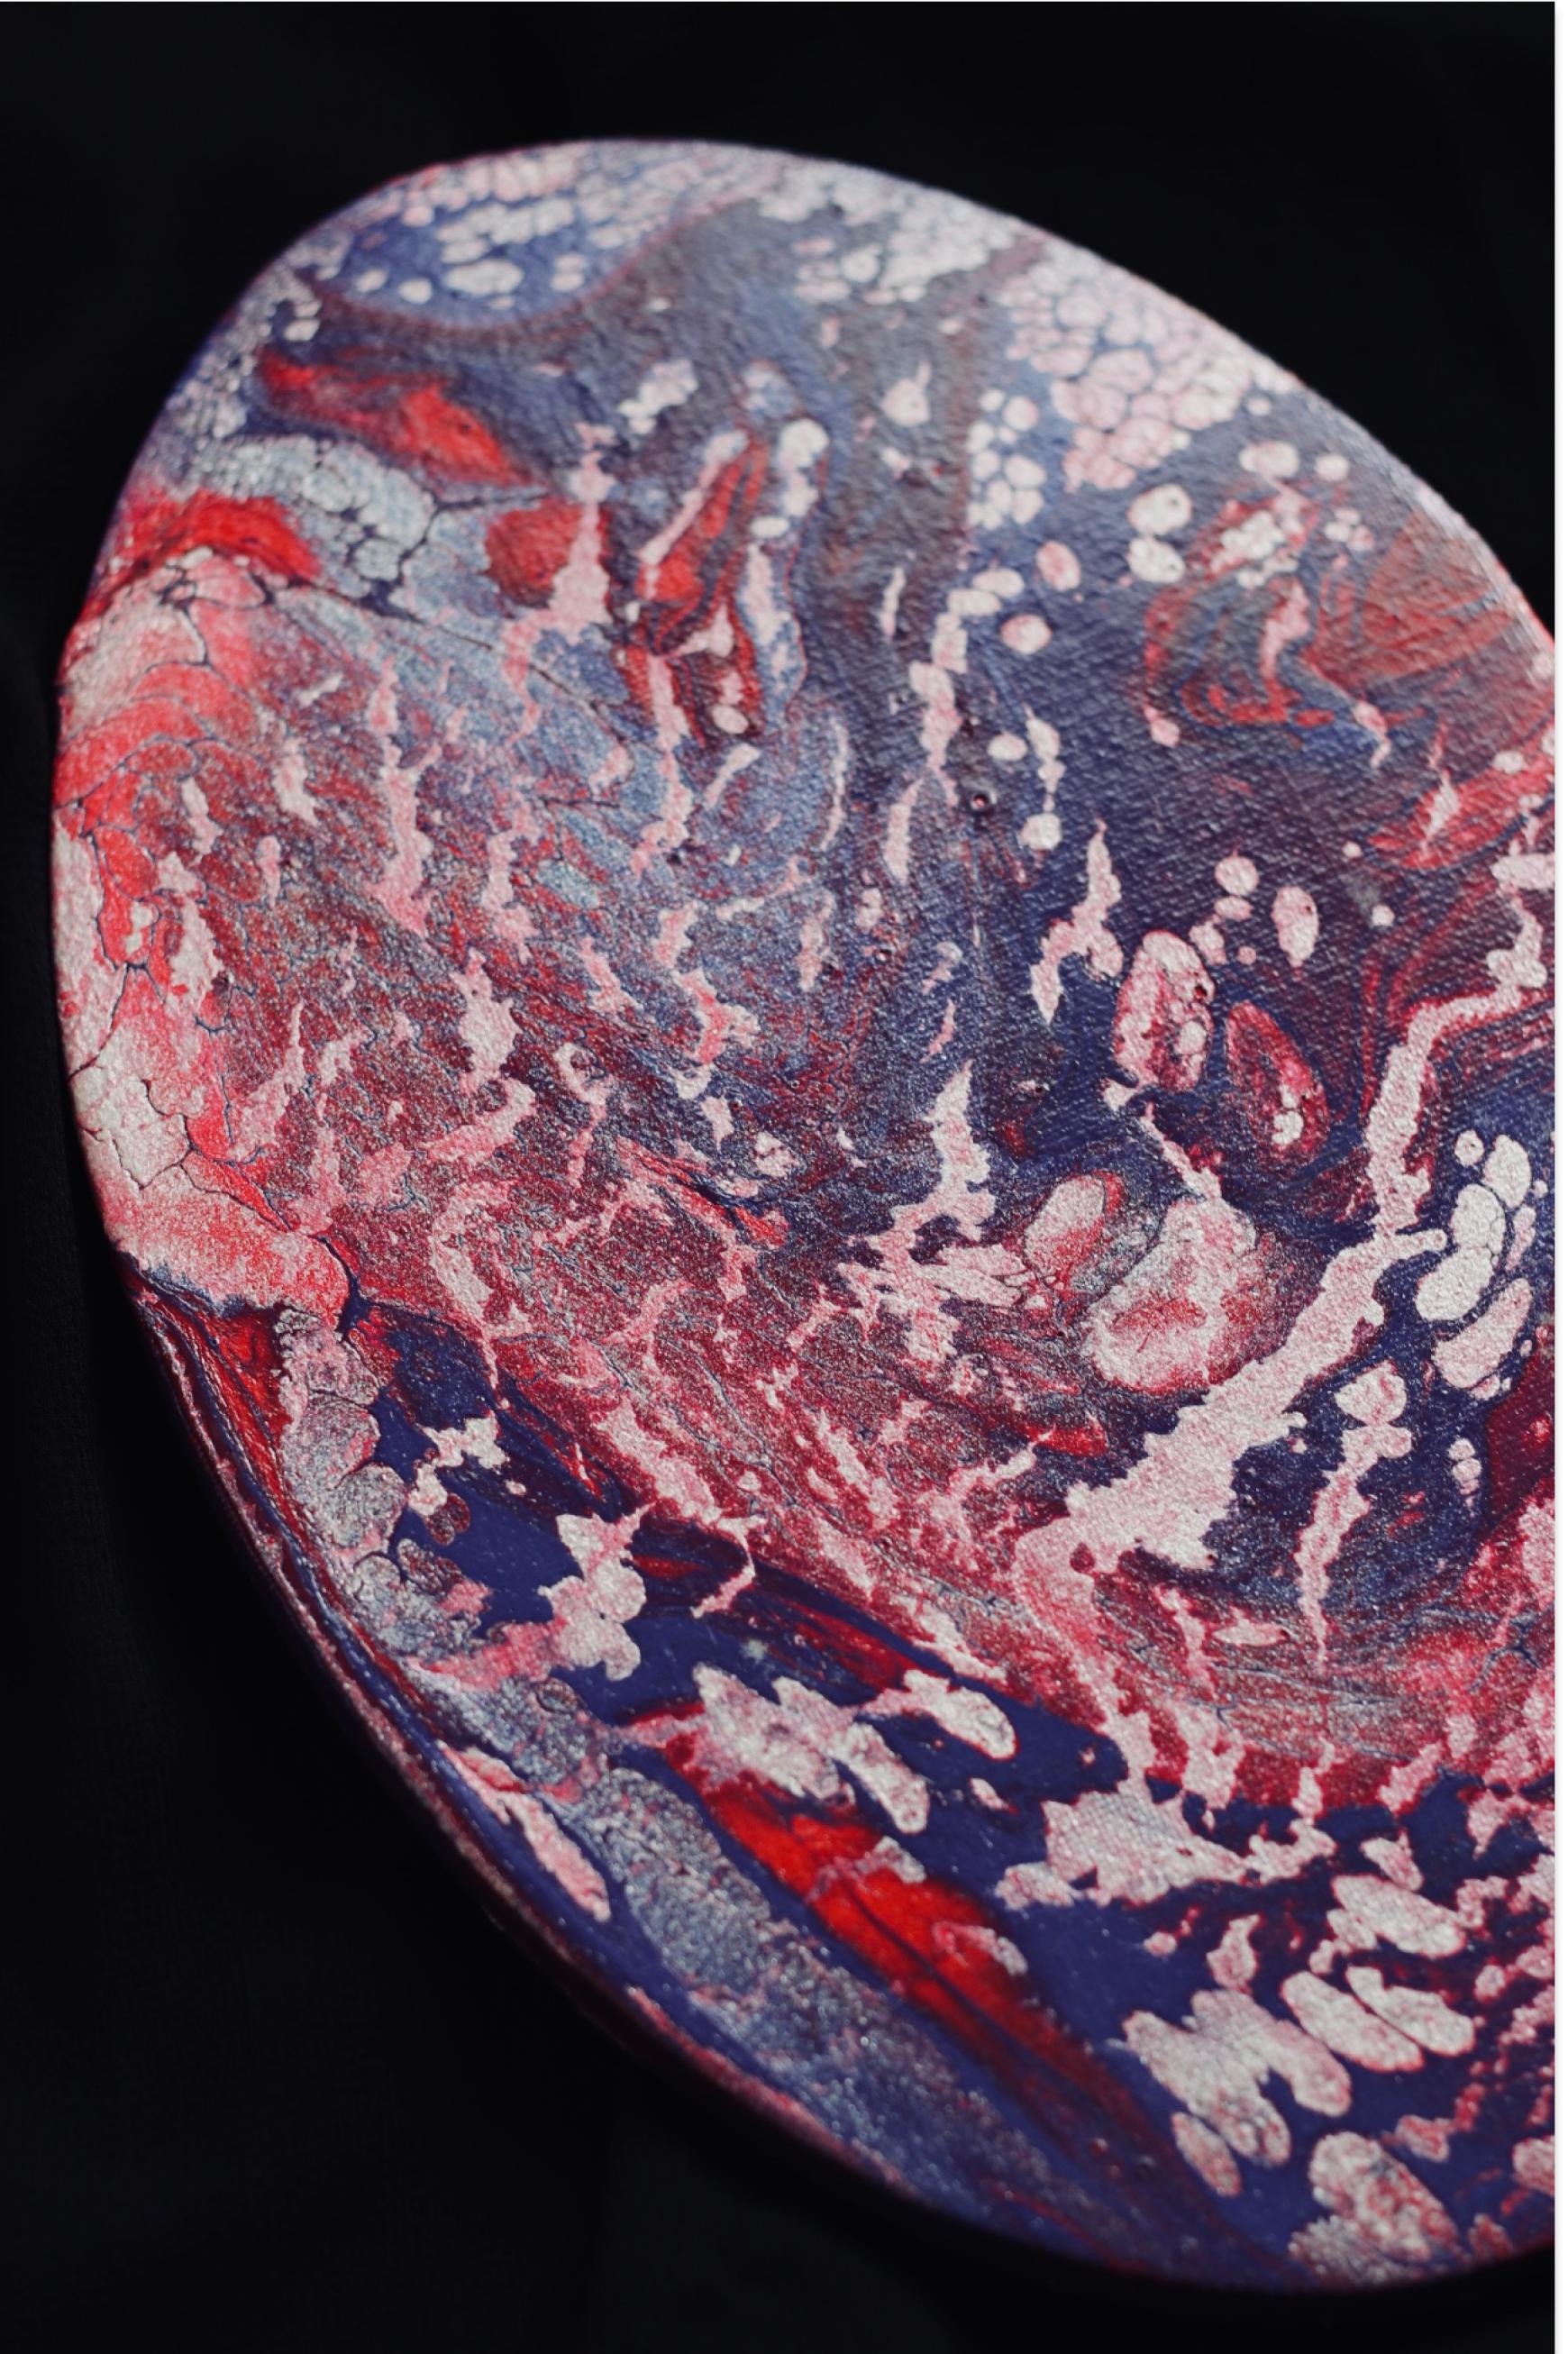

In 2019, I got a chance to assist an Interior Designer on one of her on-going project(s). Here are a couple of rough wireframes of the same:

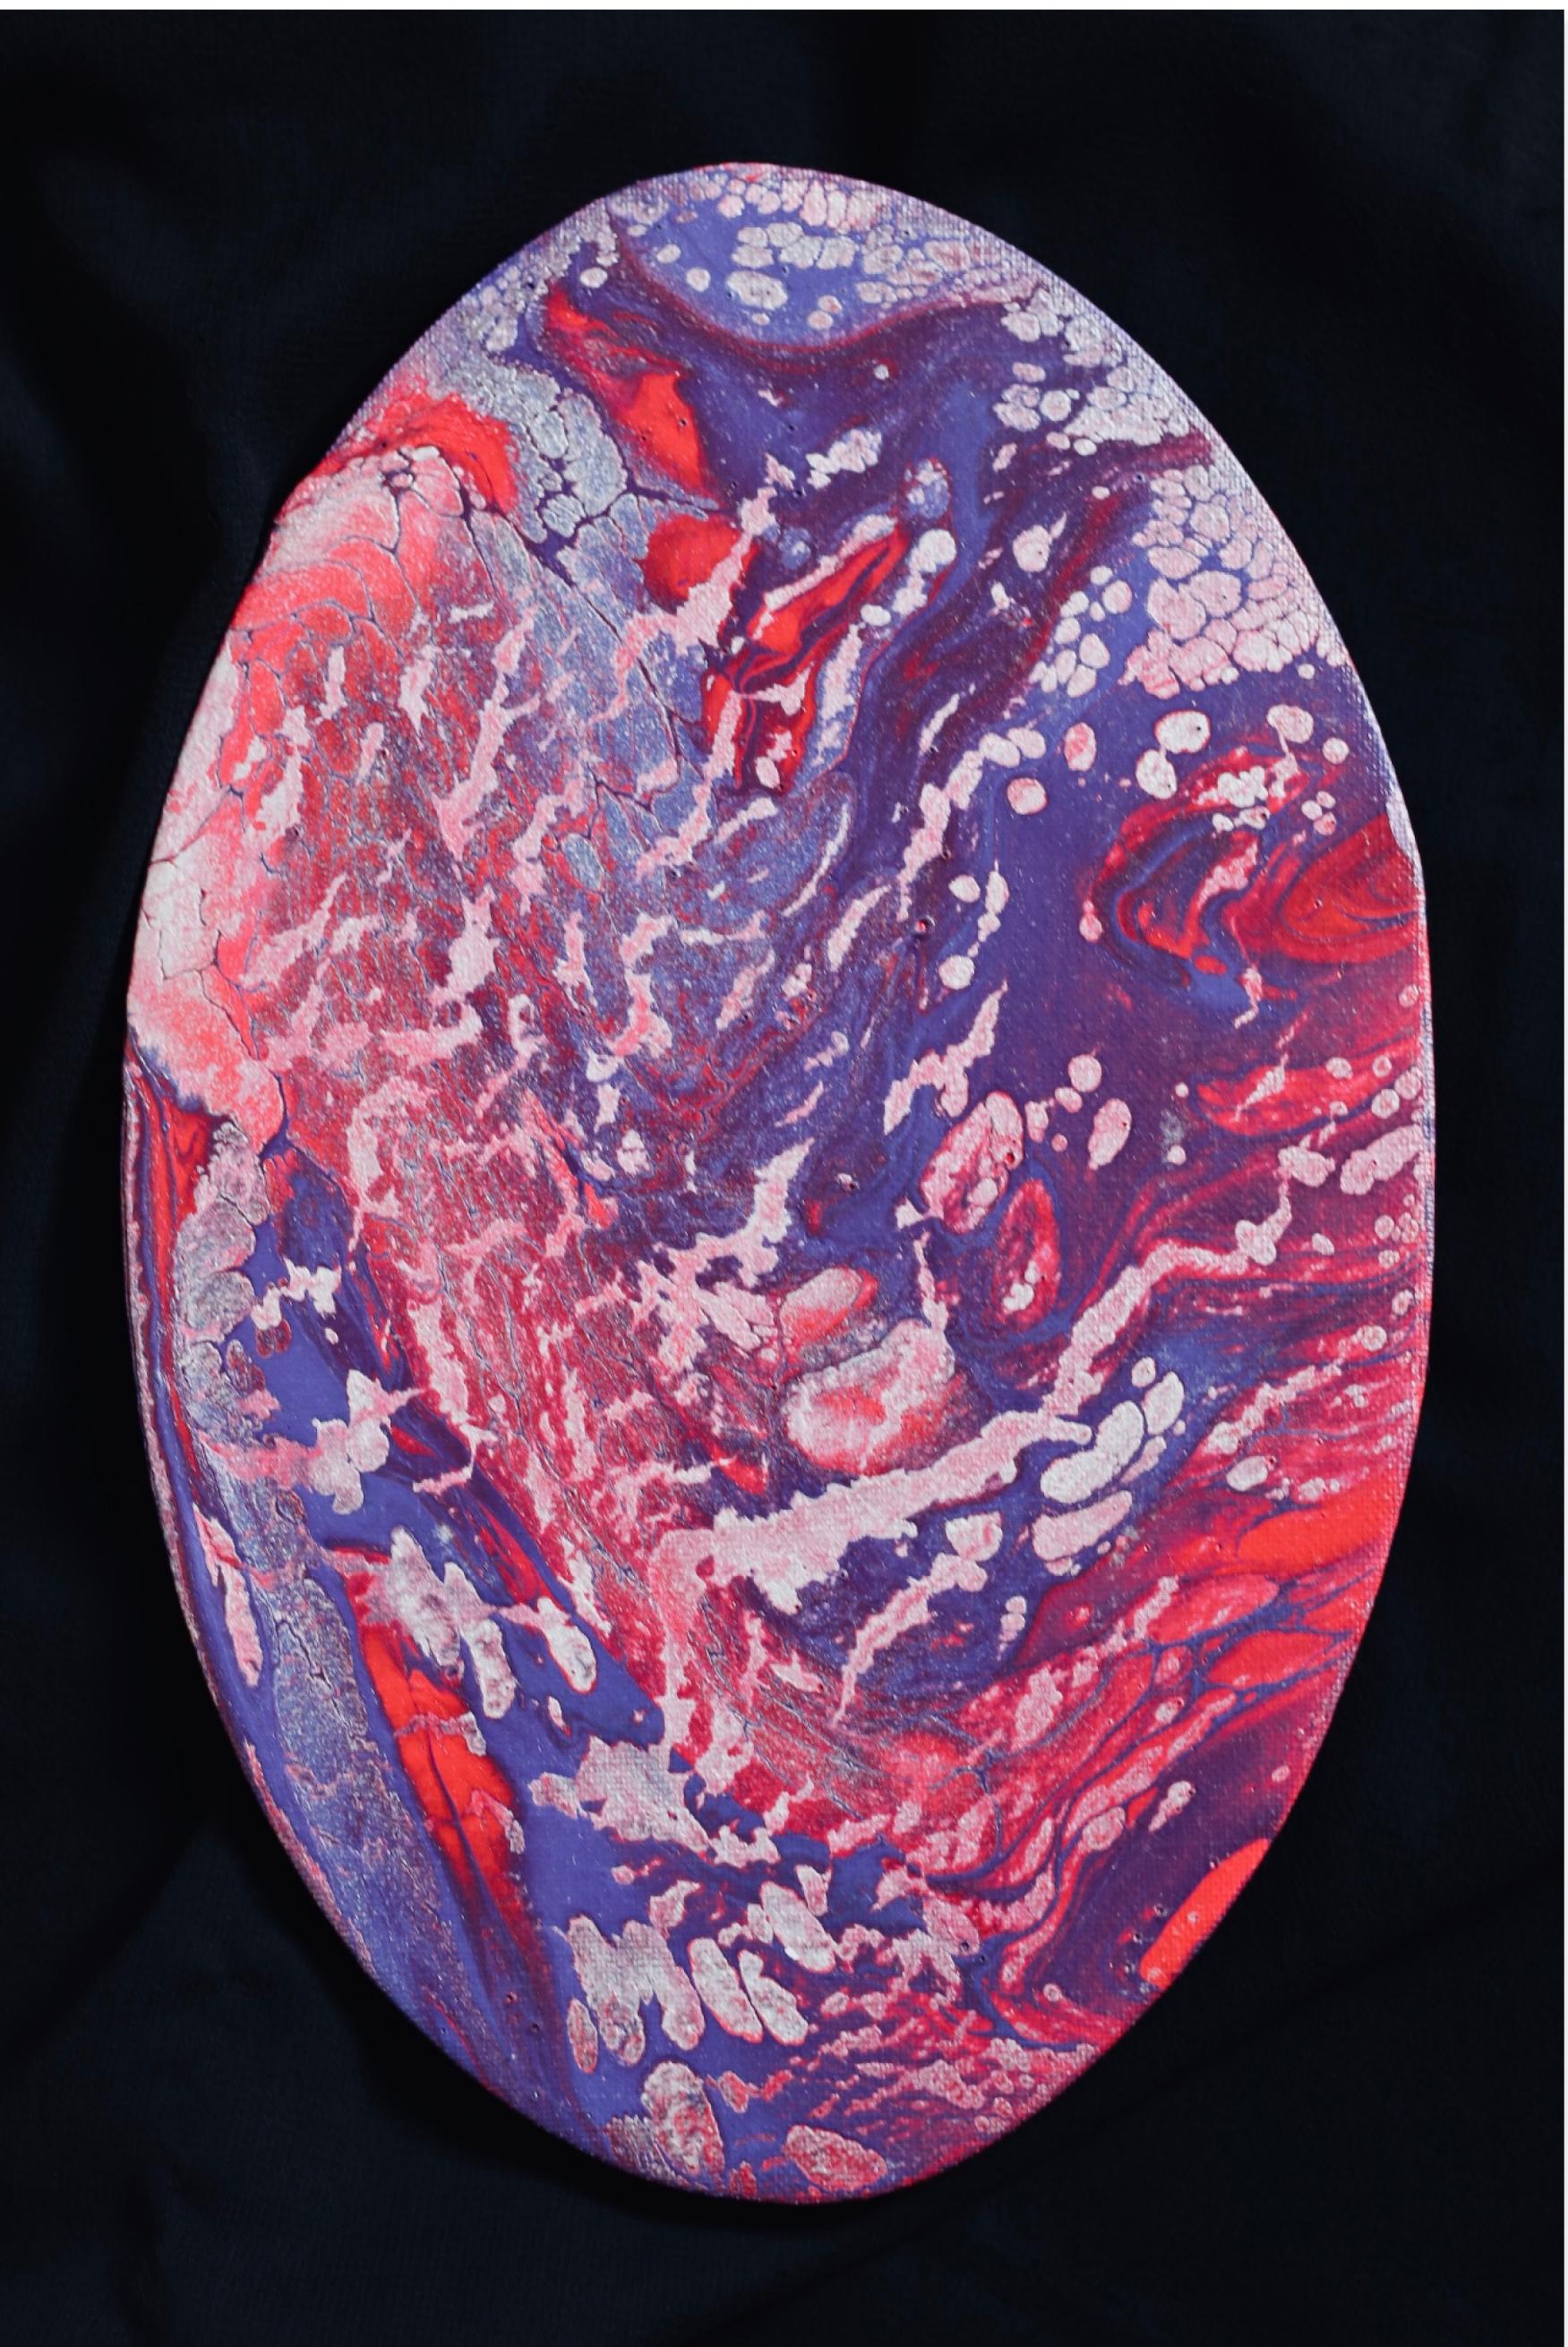

# WELCOME TO MY ART PIECES & DIYs

During the Nation-Wide lockdown which was announced in March 2020 in India, I got an opportunity to revisit my store-room (I went through this store after about 8+ years). There, I found a few raw/unusable items and thought why not use them to create unique decor/art pieces?

This led to the creation of some DIY pieces, Paintings & more.. Also, I forgot to mention earlier that I also photographed these pieces of art to make them even more beautiful on pictures :)

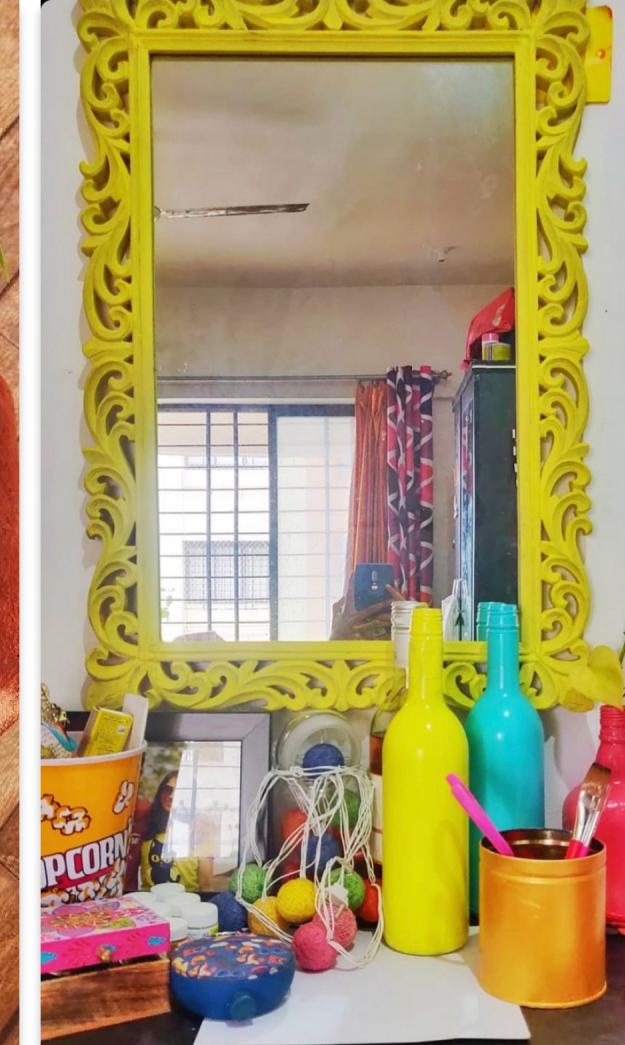

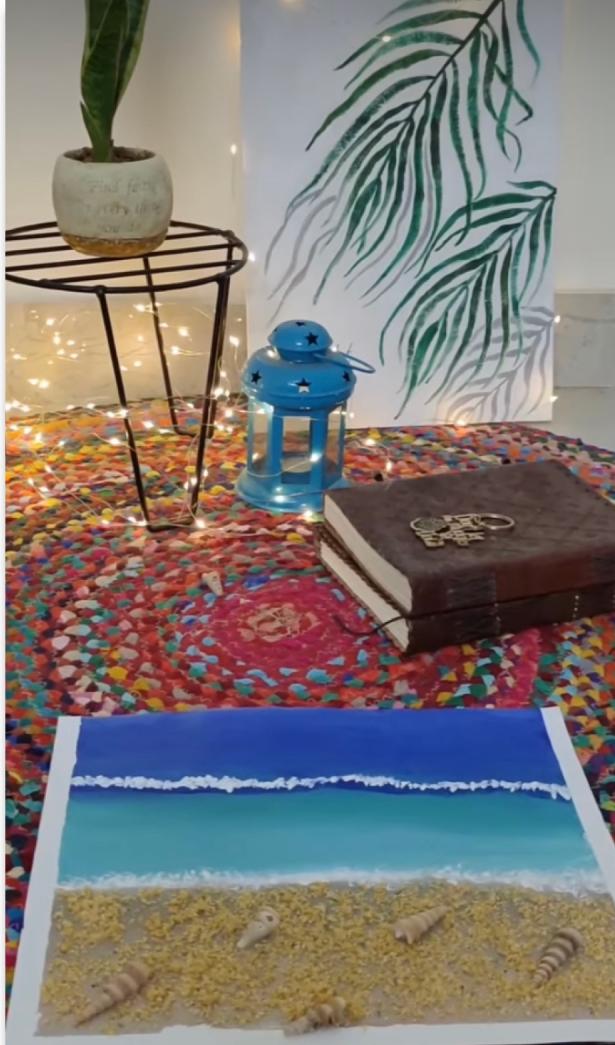

Made this DIY lamp out of unused plumbing pipes and cane basket.  
Also, hand painted this old trunk.

Made this planter using rusted iron stand and discarded cupboard drawer. Finished the look with chalk paint.

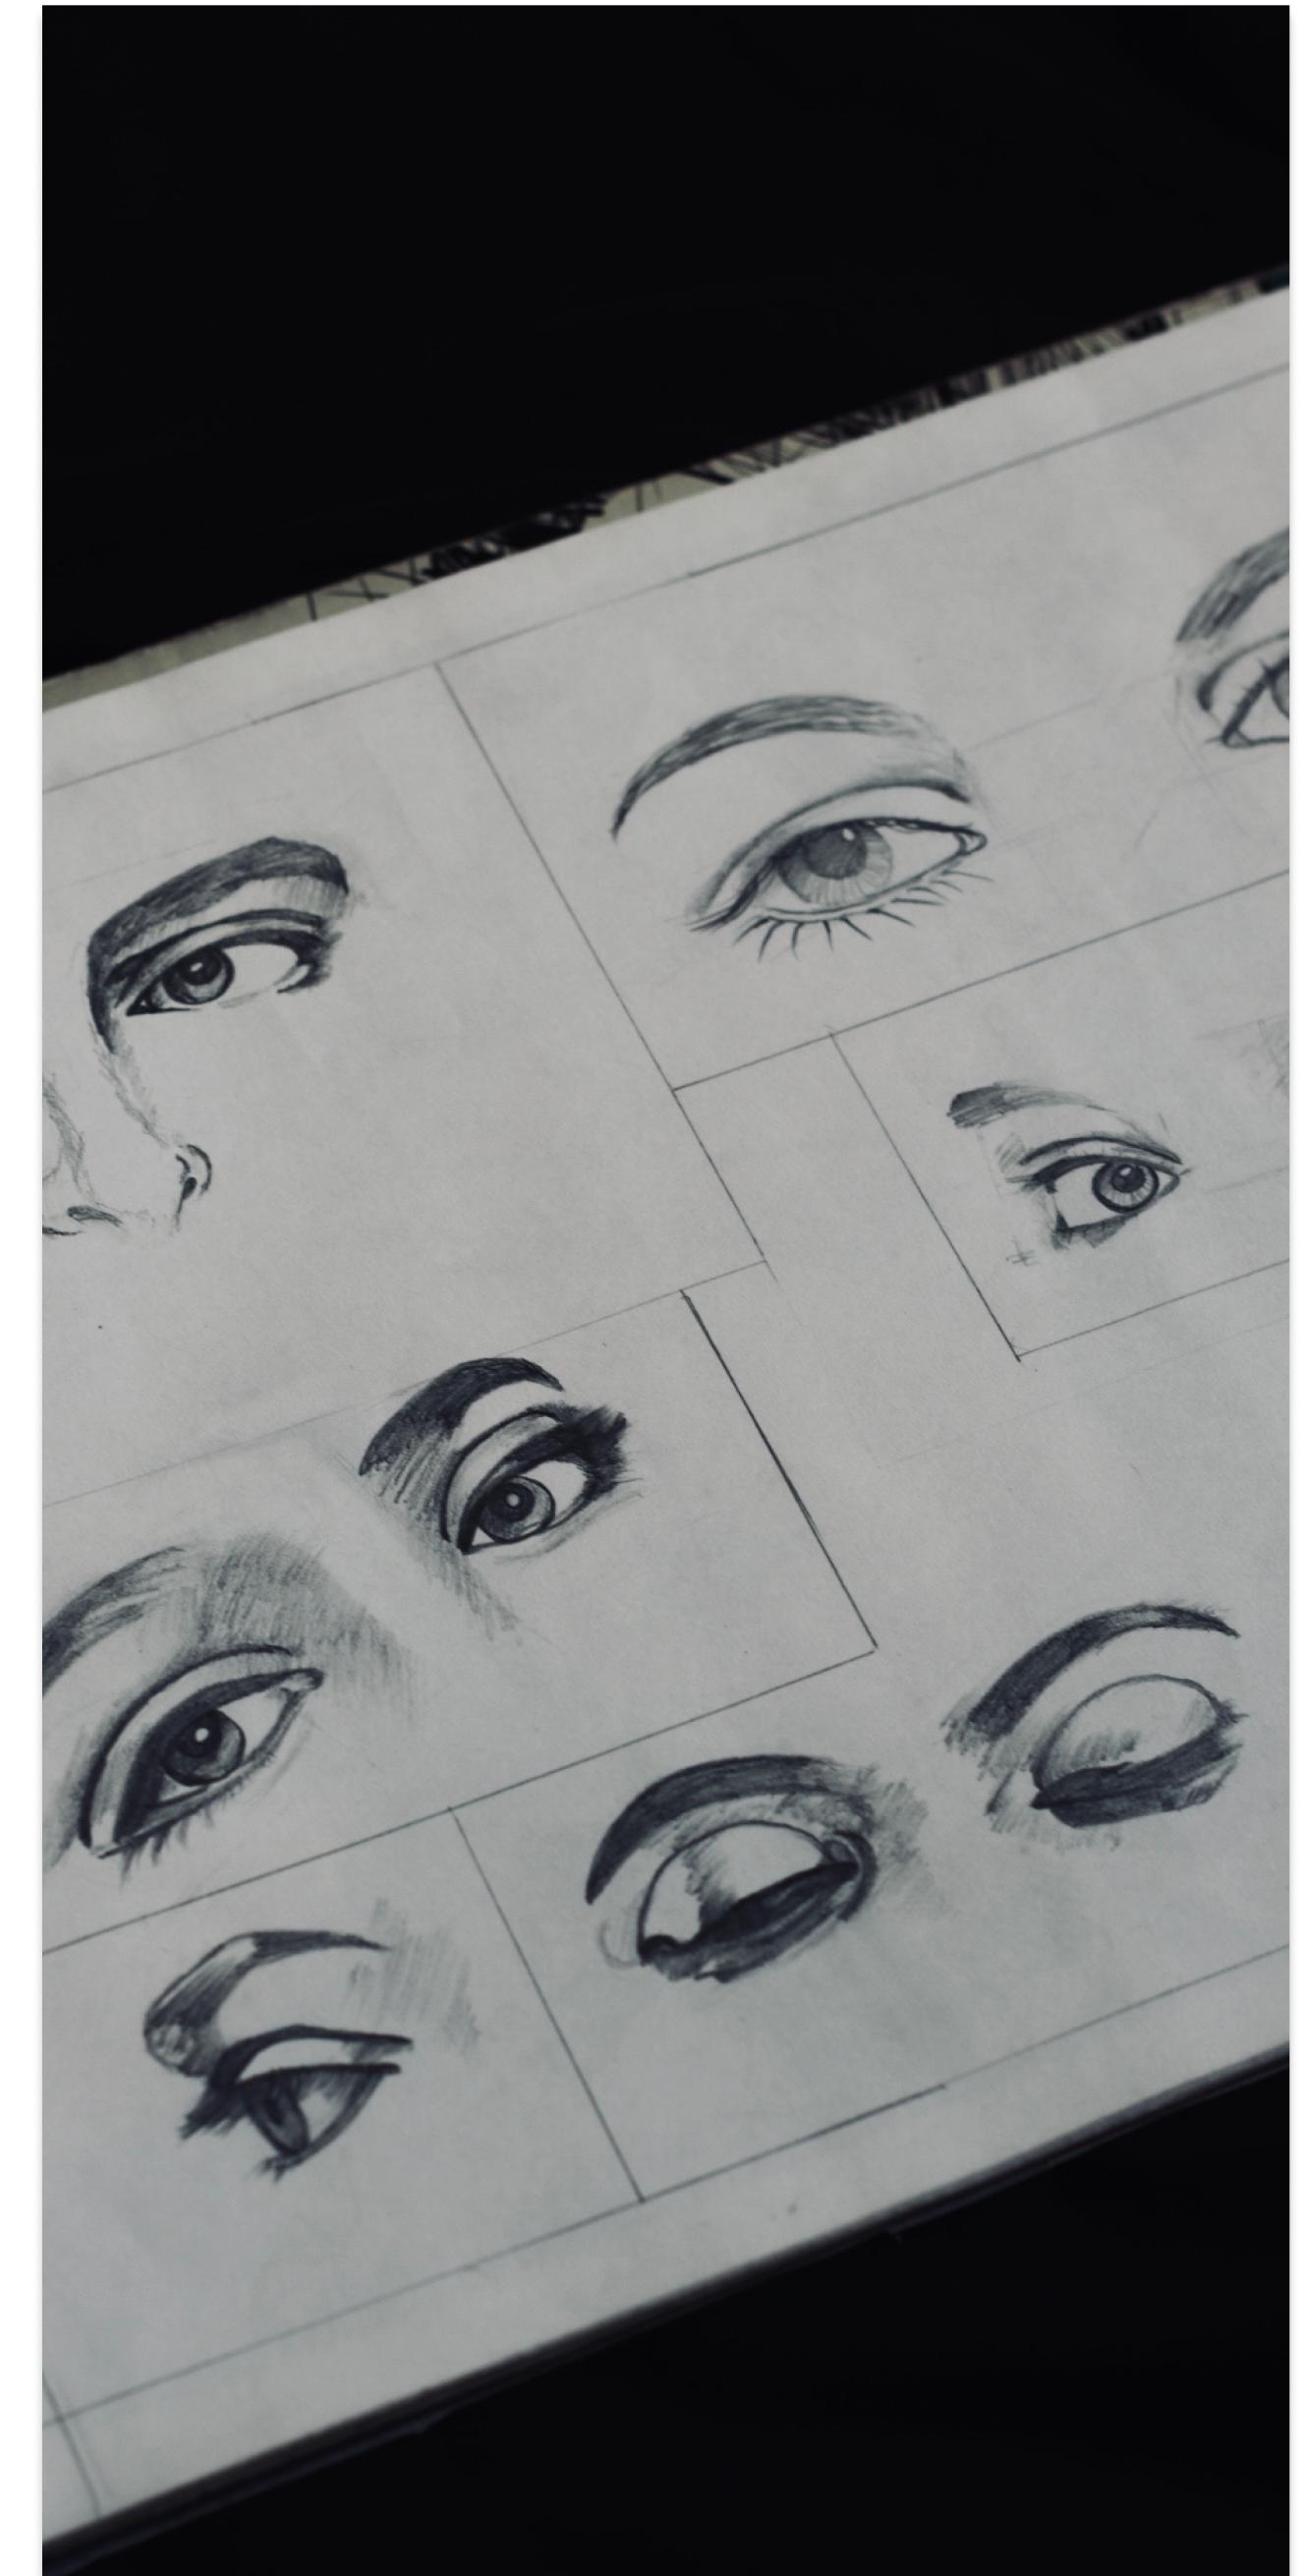

## PINTEREST INSPIRED PROJECTS

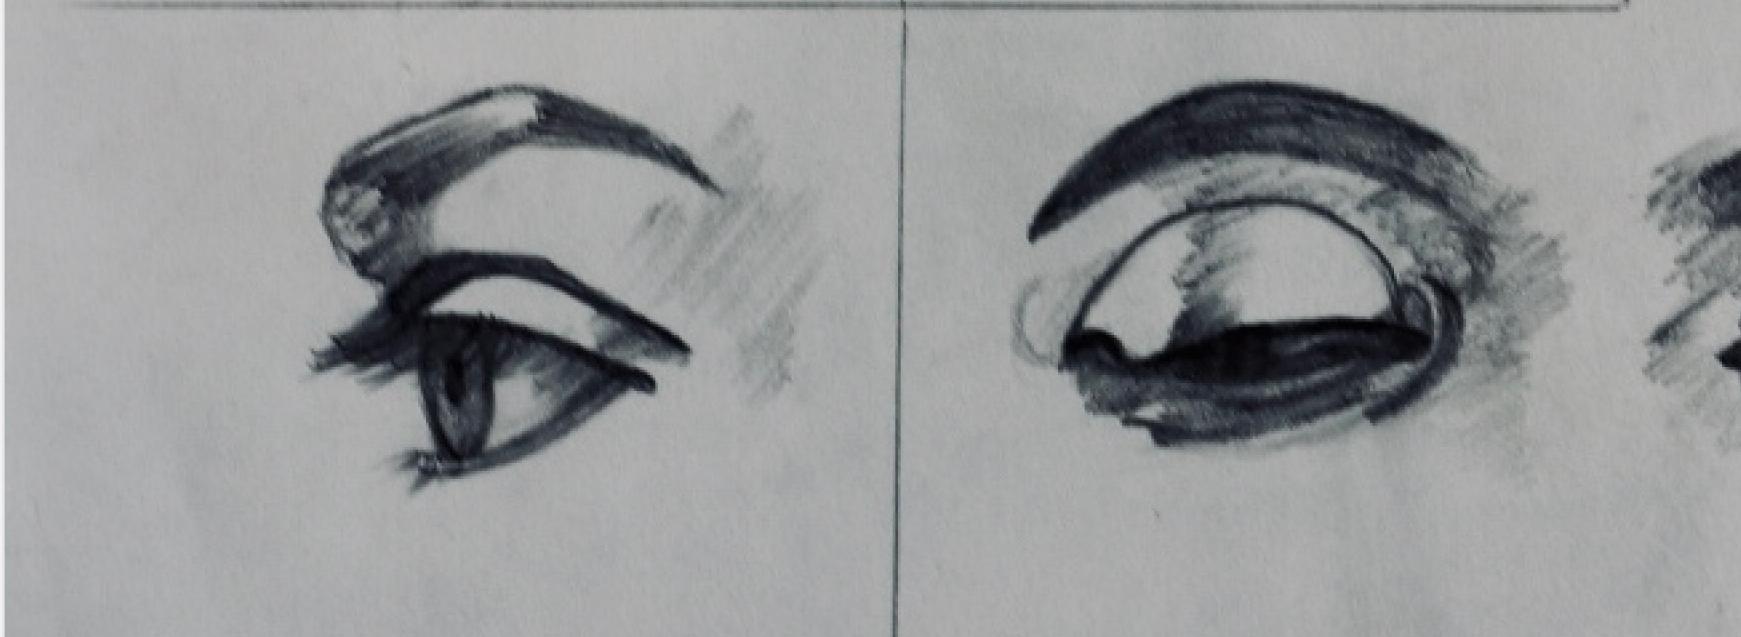

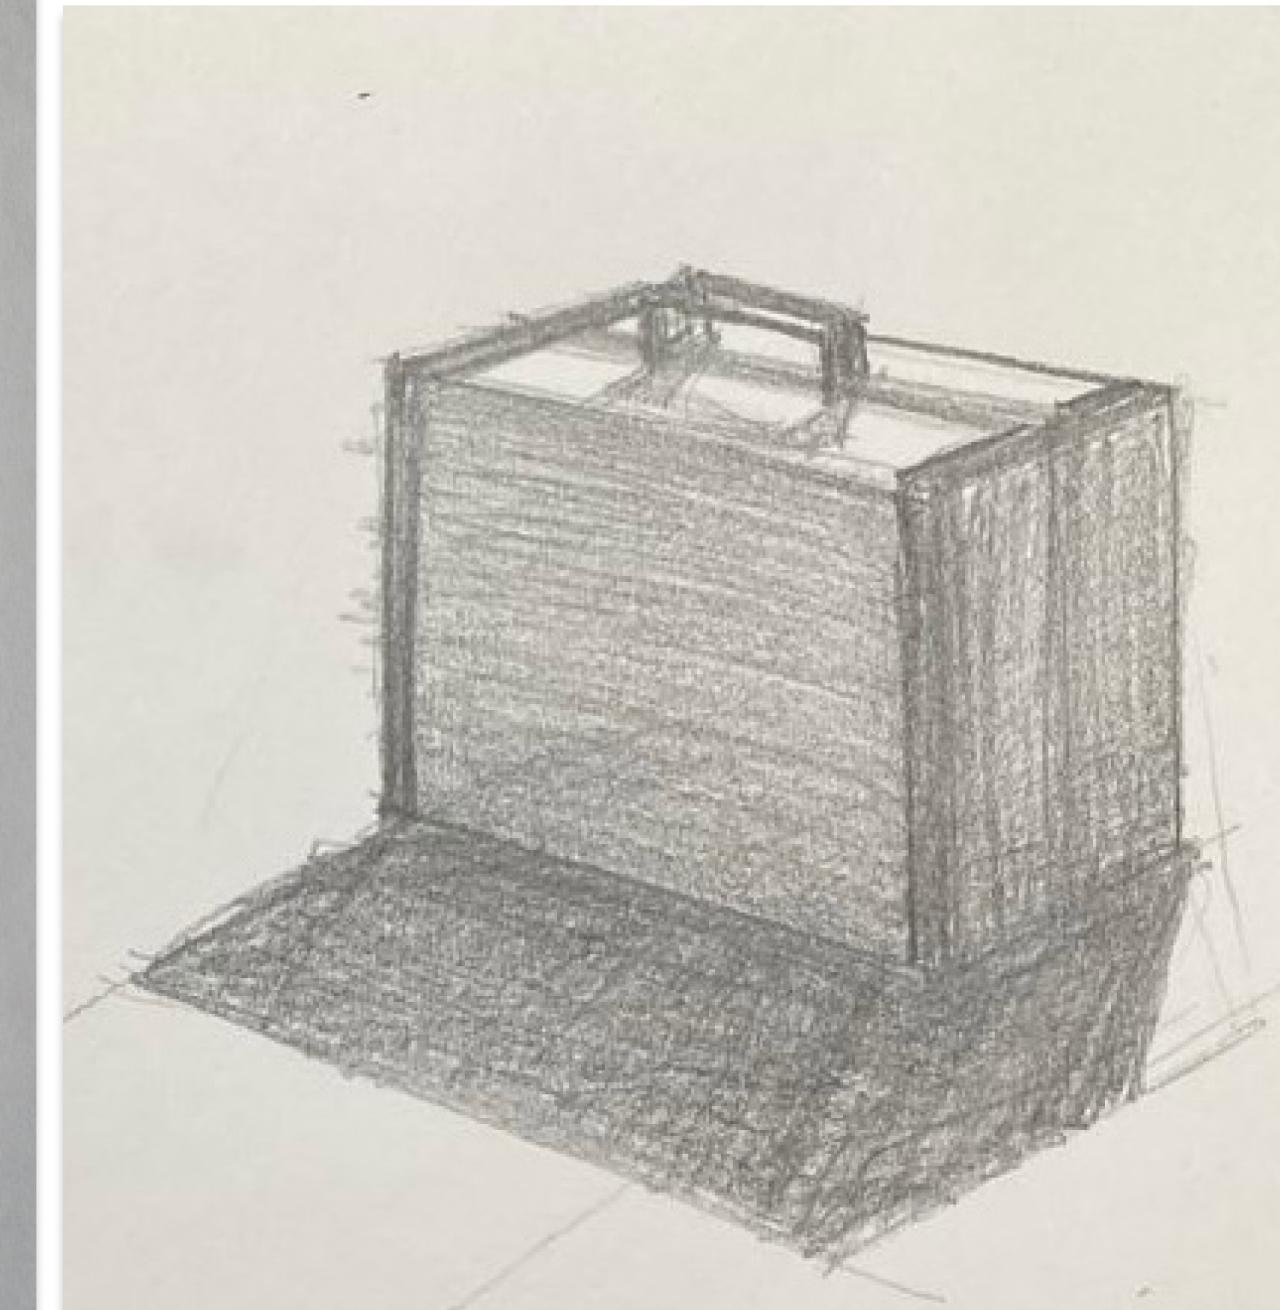

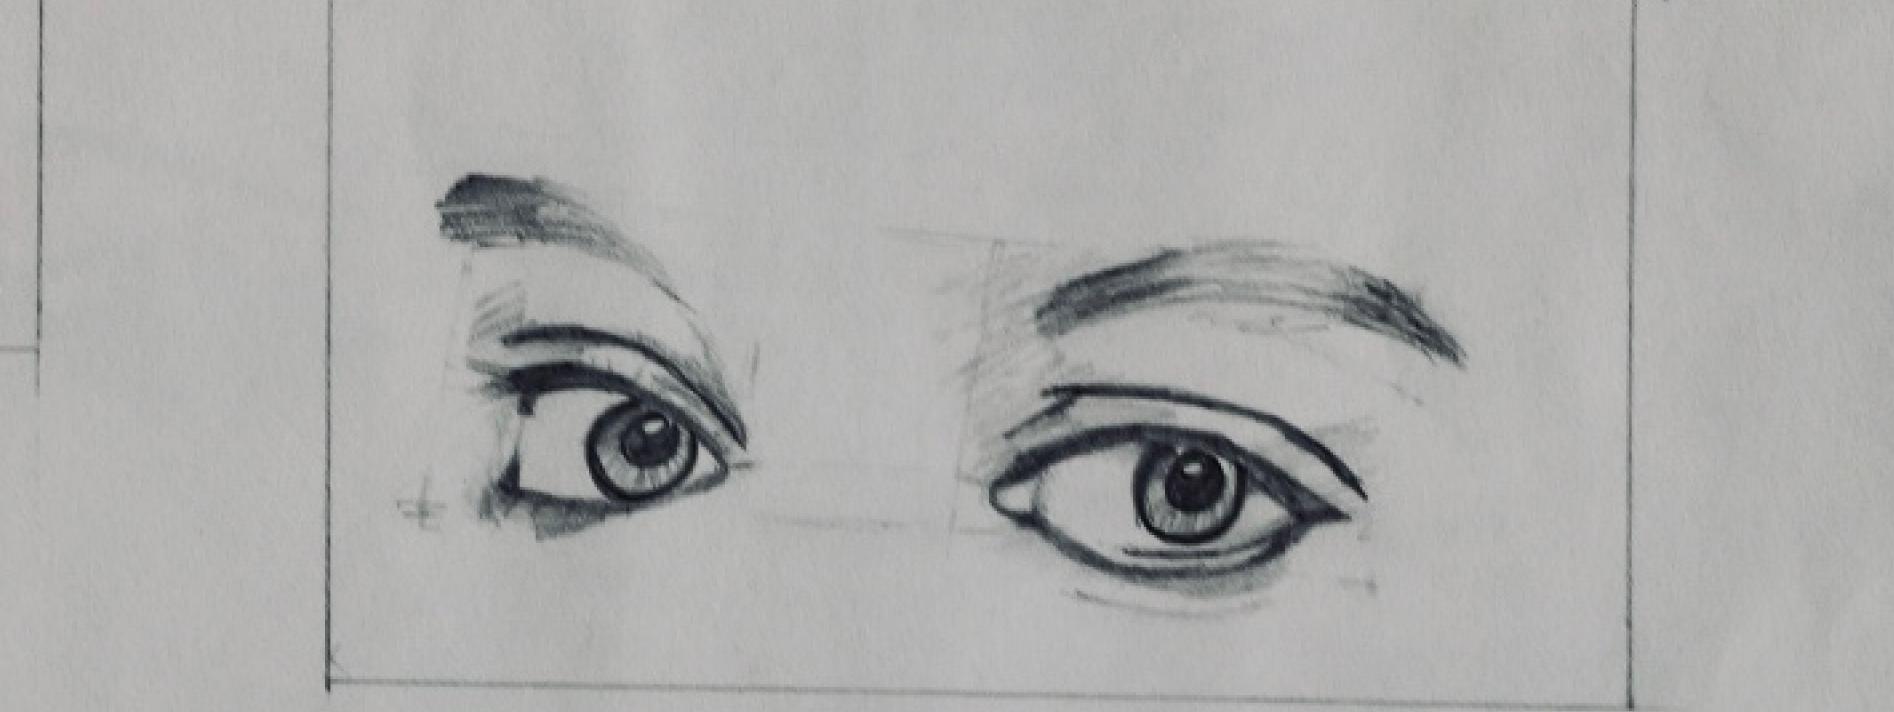

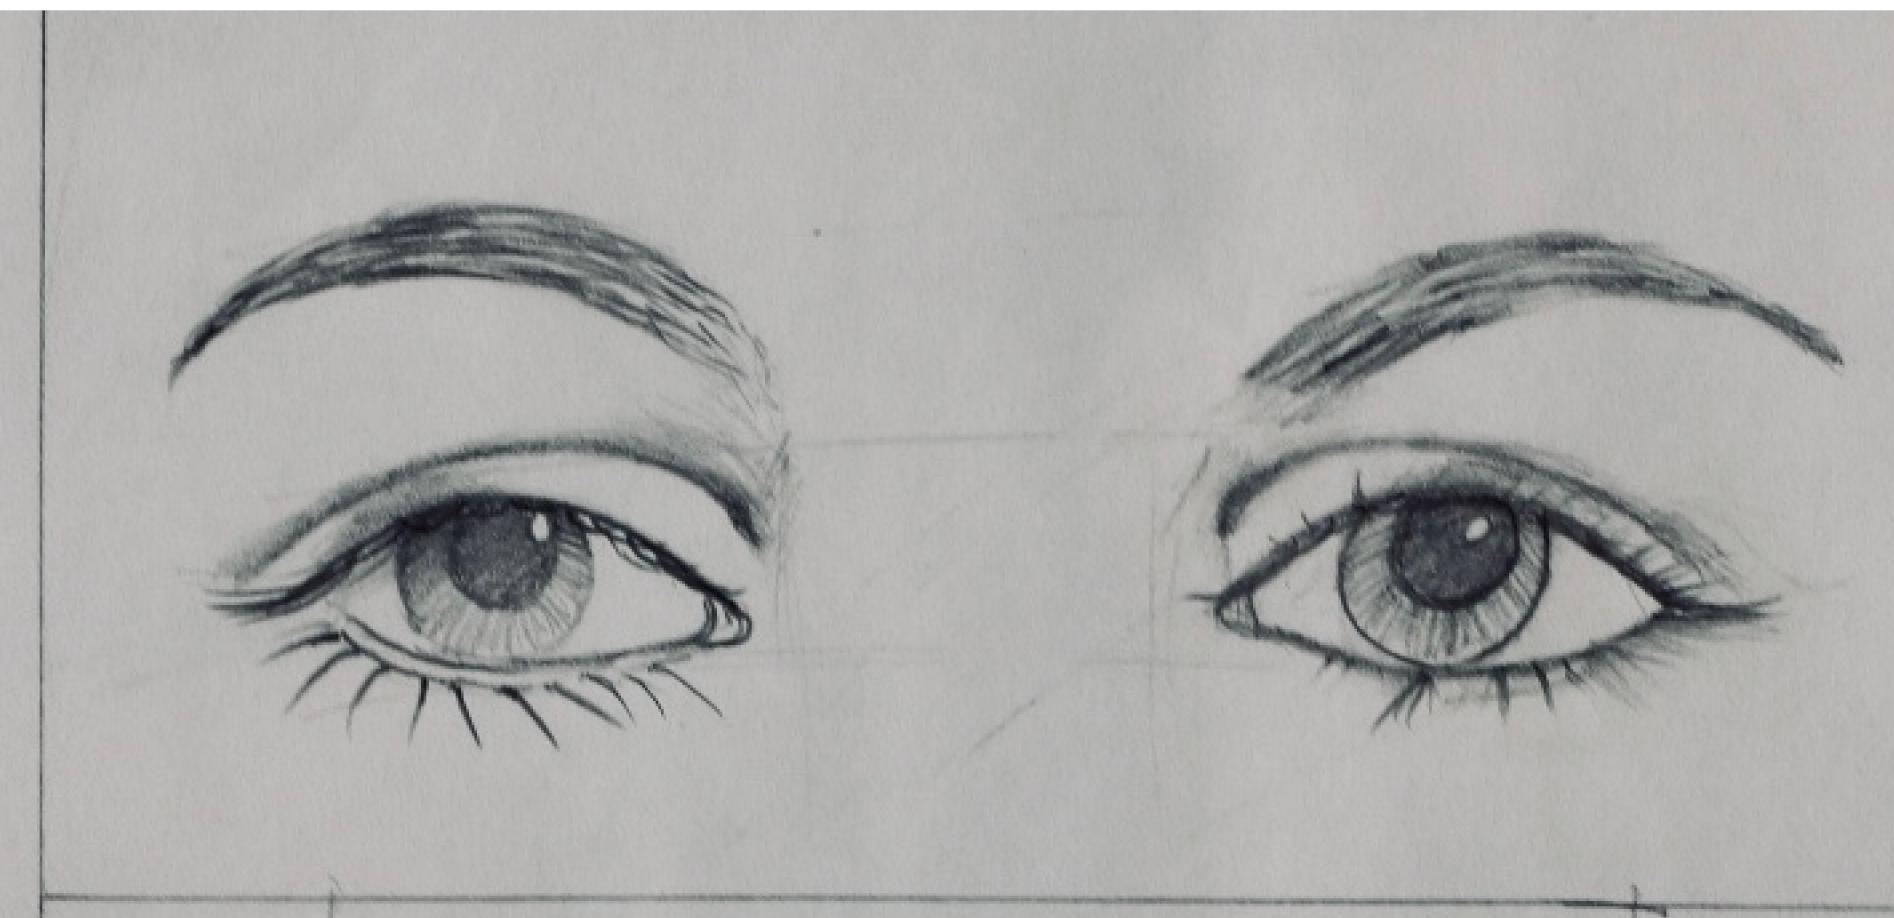

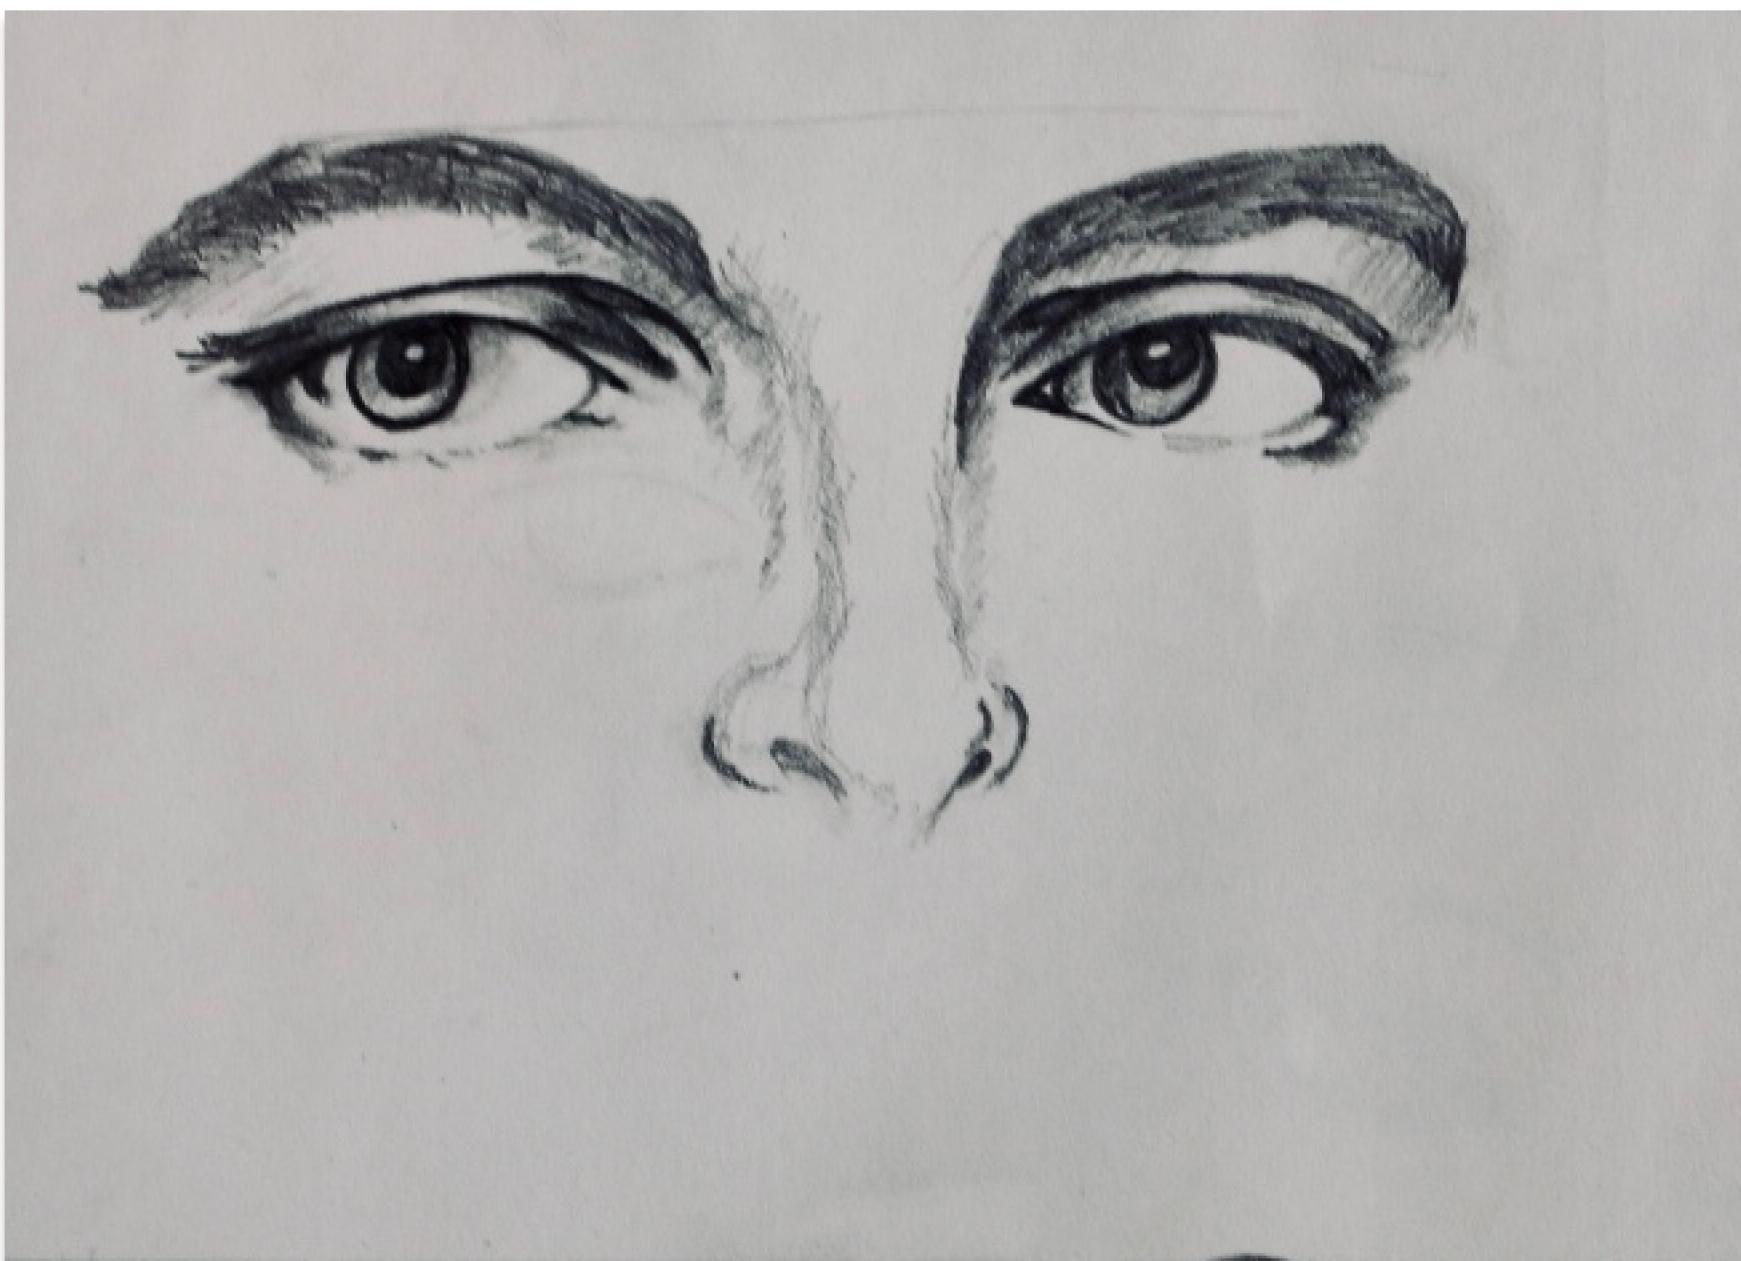

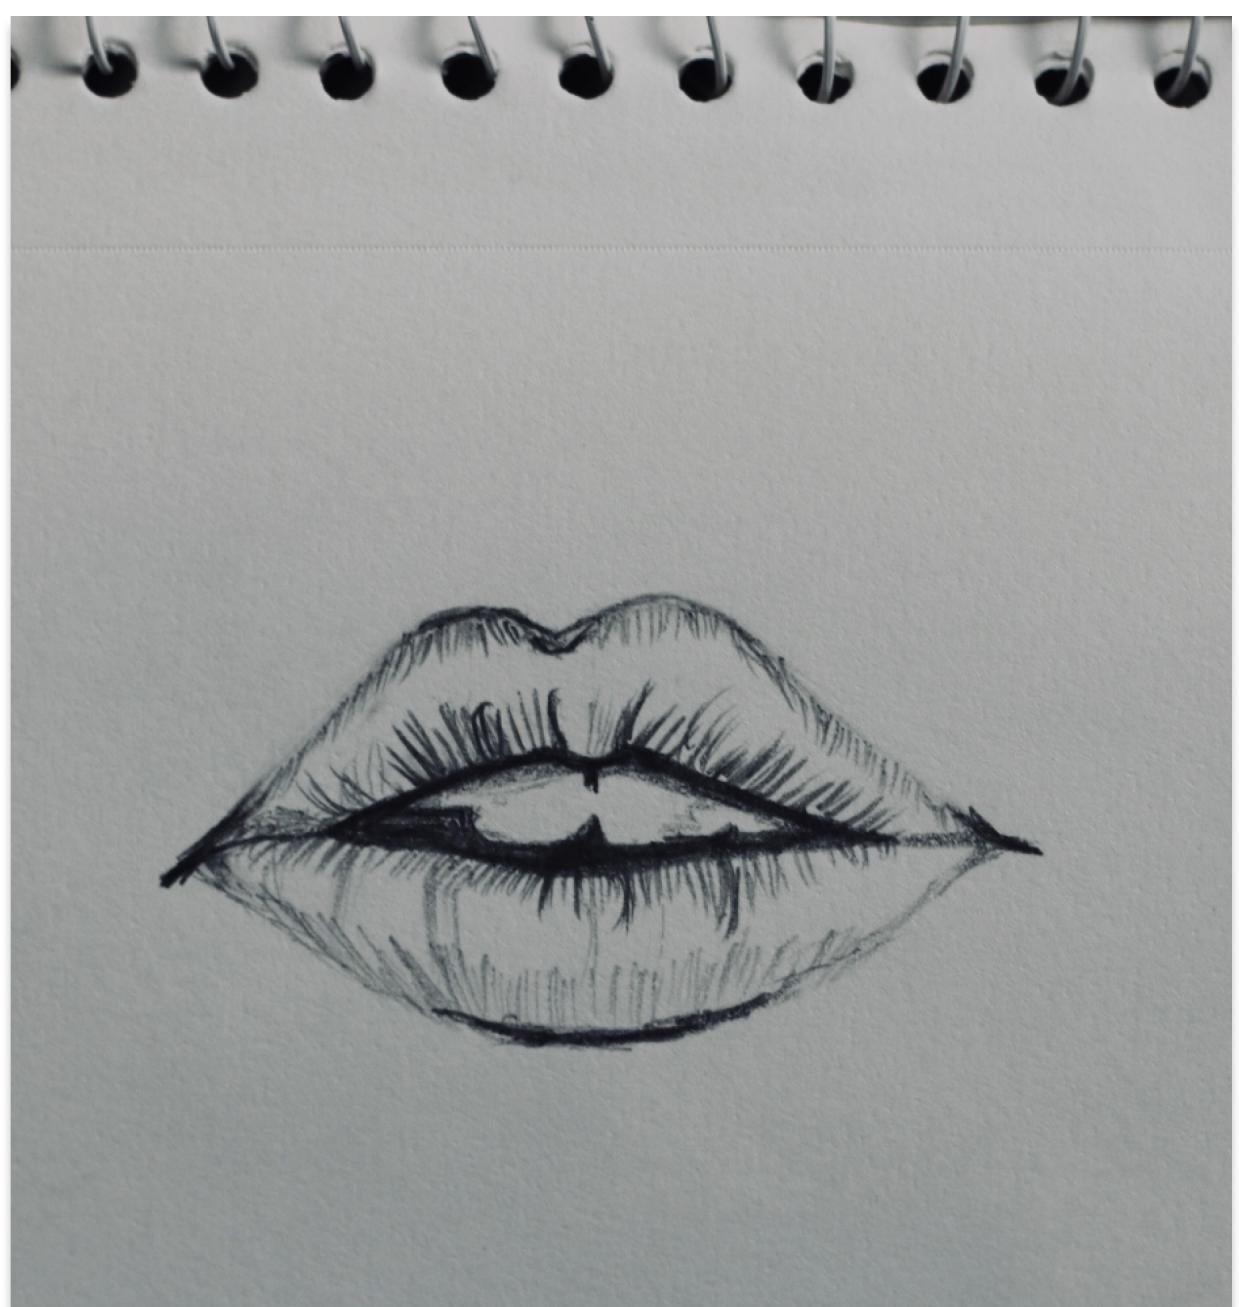

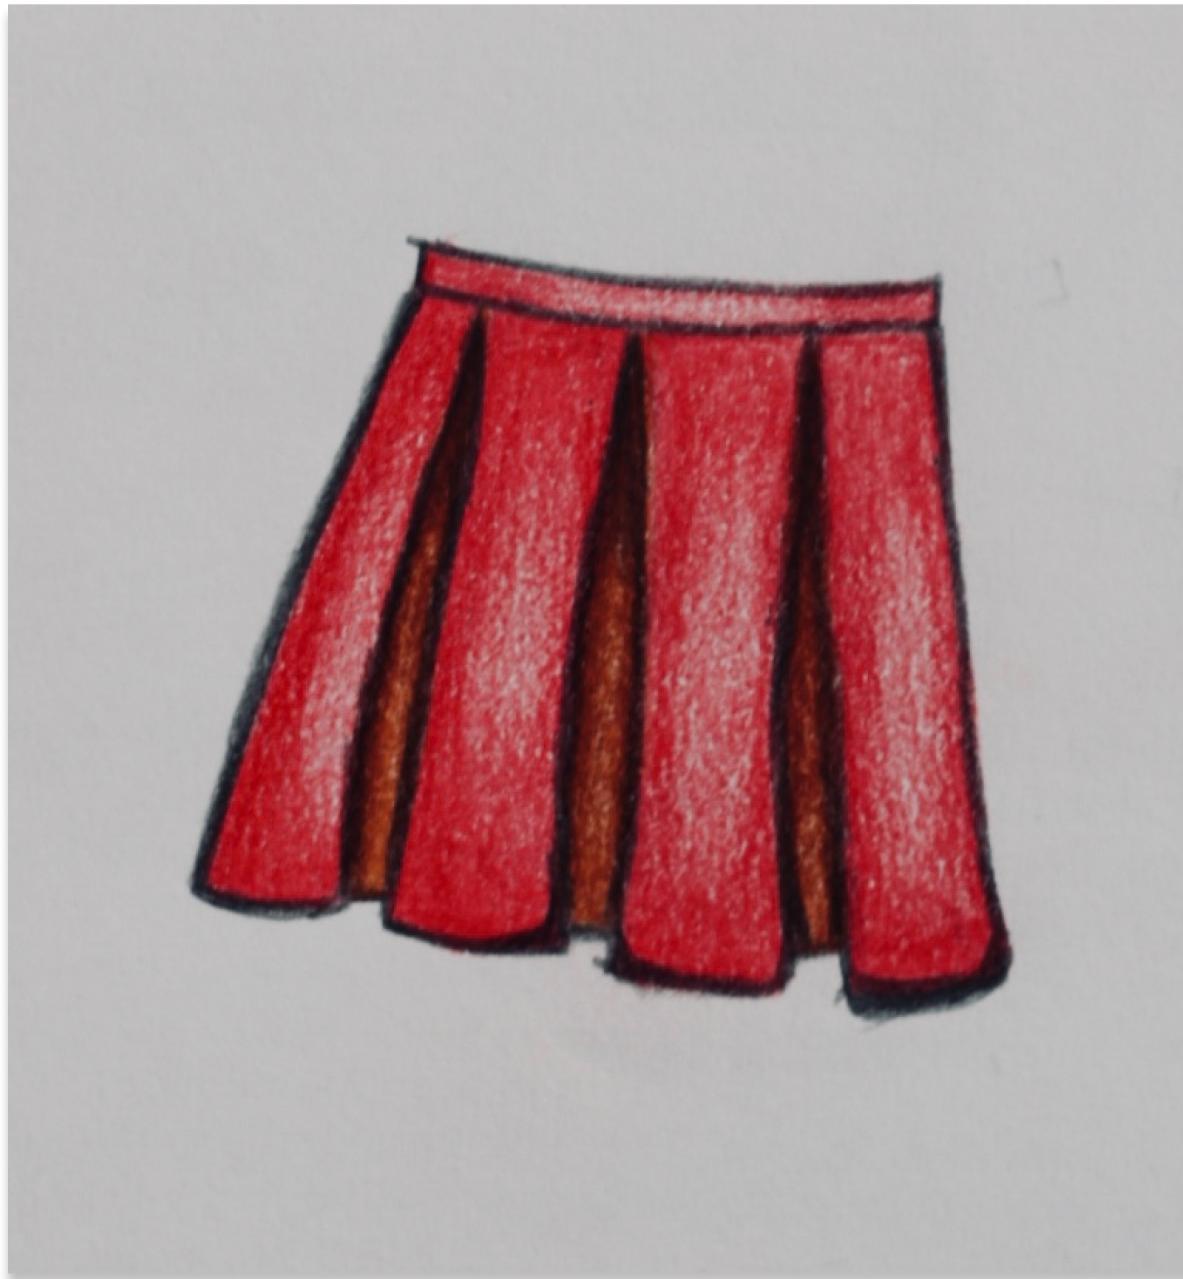

## ABSTRACT SPACE CANVAS PAINTING

From a very young age, astronomy and space have always fascinated me. A few months back on full-moon, I decided to make a canvas of the same..

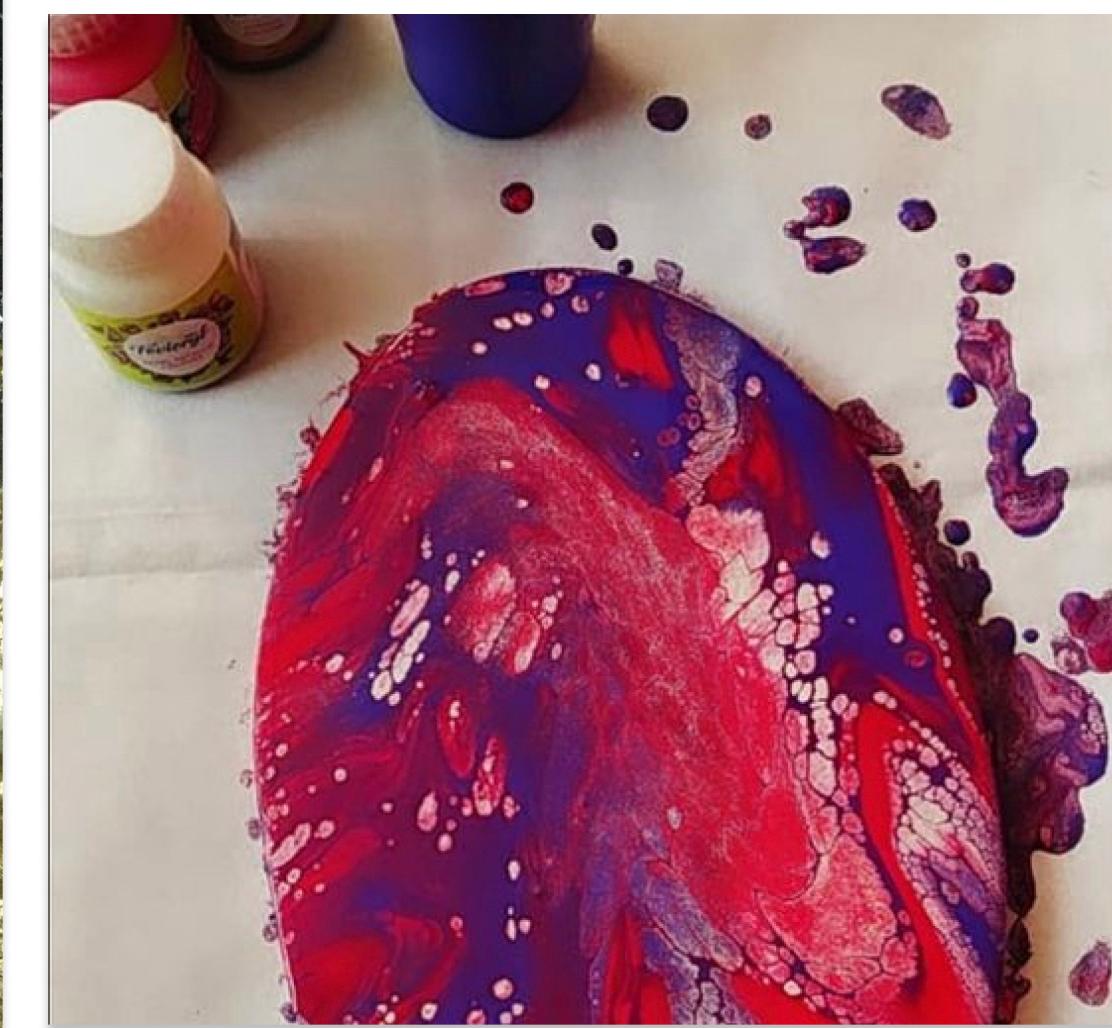

## ABSTRACT NOTHERN LIGHTS RESIN ART

I made this piece to keep myself reminded that witnessing Nothern Lights is on my bucket list.

These were some of my favourite artworks and sketches which I recently made. If this looks interesting to you, I'd love to show you more of what I made :)

# INTERIOR DECOR FOR A PHOTOSHOOT CAMPAIGN AT A LOCAL ECO-RESORT

Recently, I got an opportunity to work on this project with a Media & Marketing organisation. During this project, my work was to select & place the decor items in a way which would make the photographs look even more beautiful and aesthetically pleasing.

As a child, I've always enjoyed and loved to play around with the corners of my house to make them look stunning. Hence, this project helped me in exploring my creativity and gave me an interest boost in learning more about it.

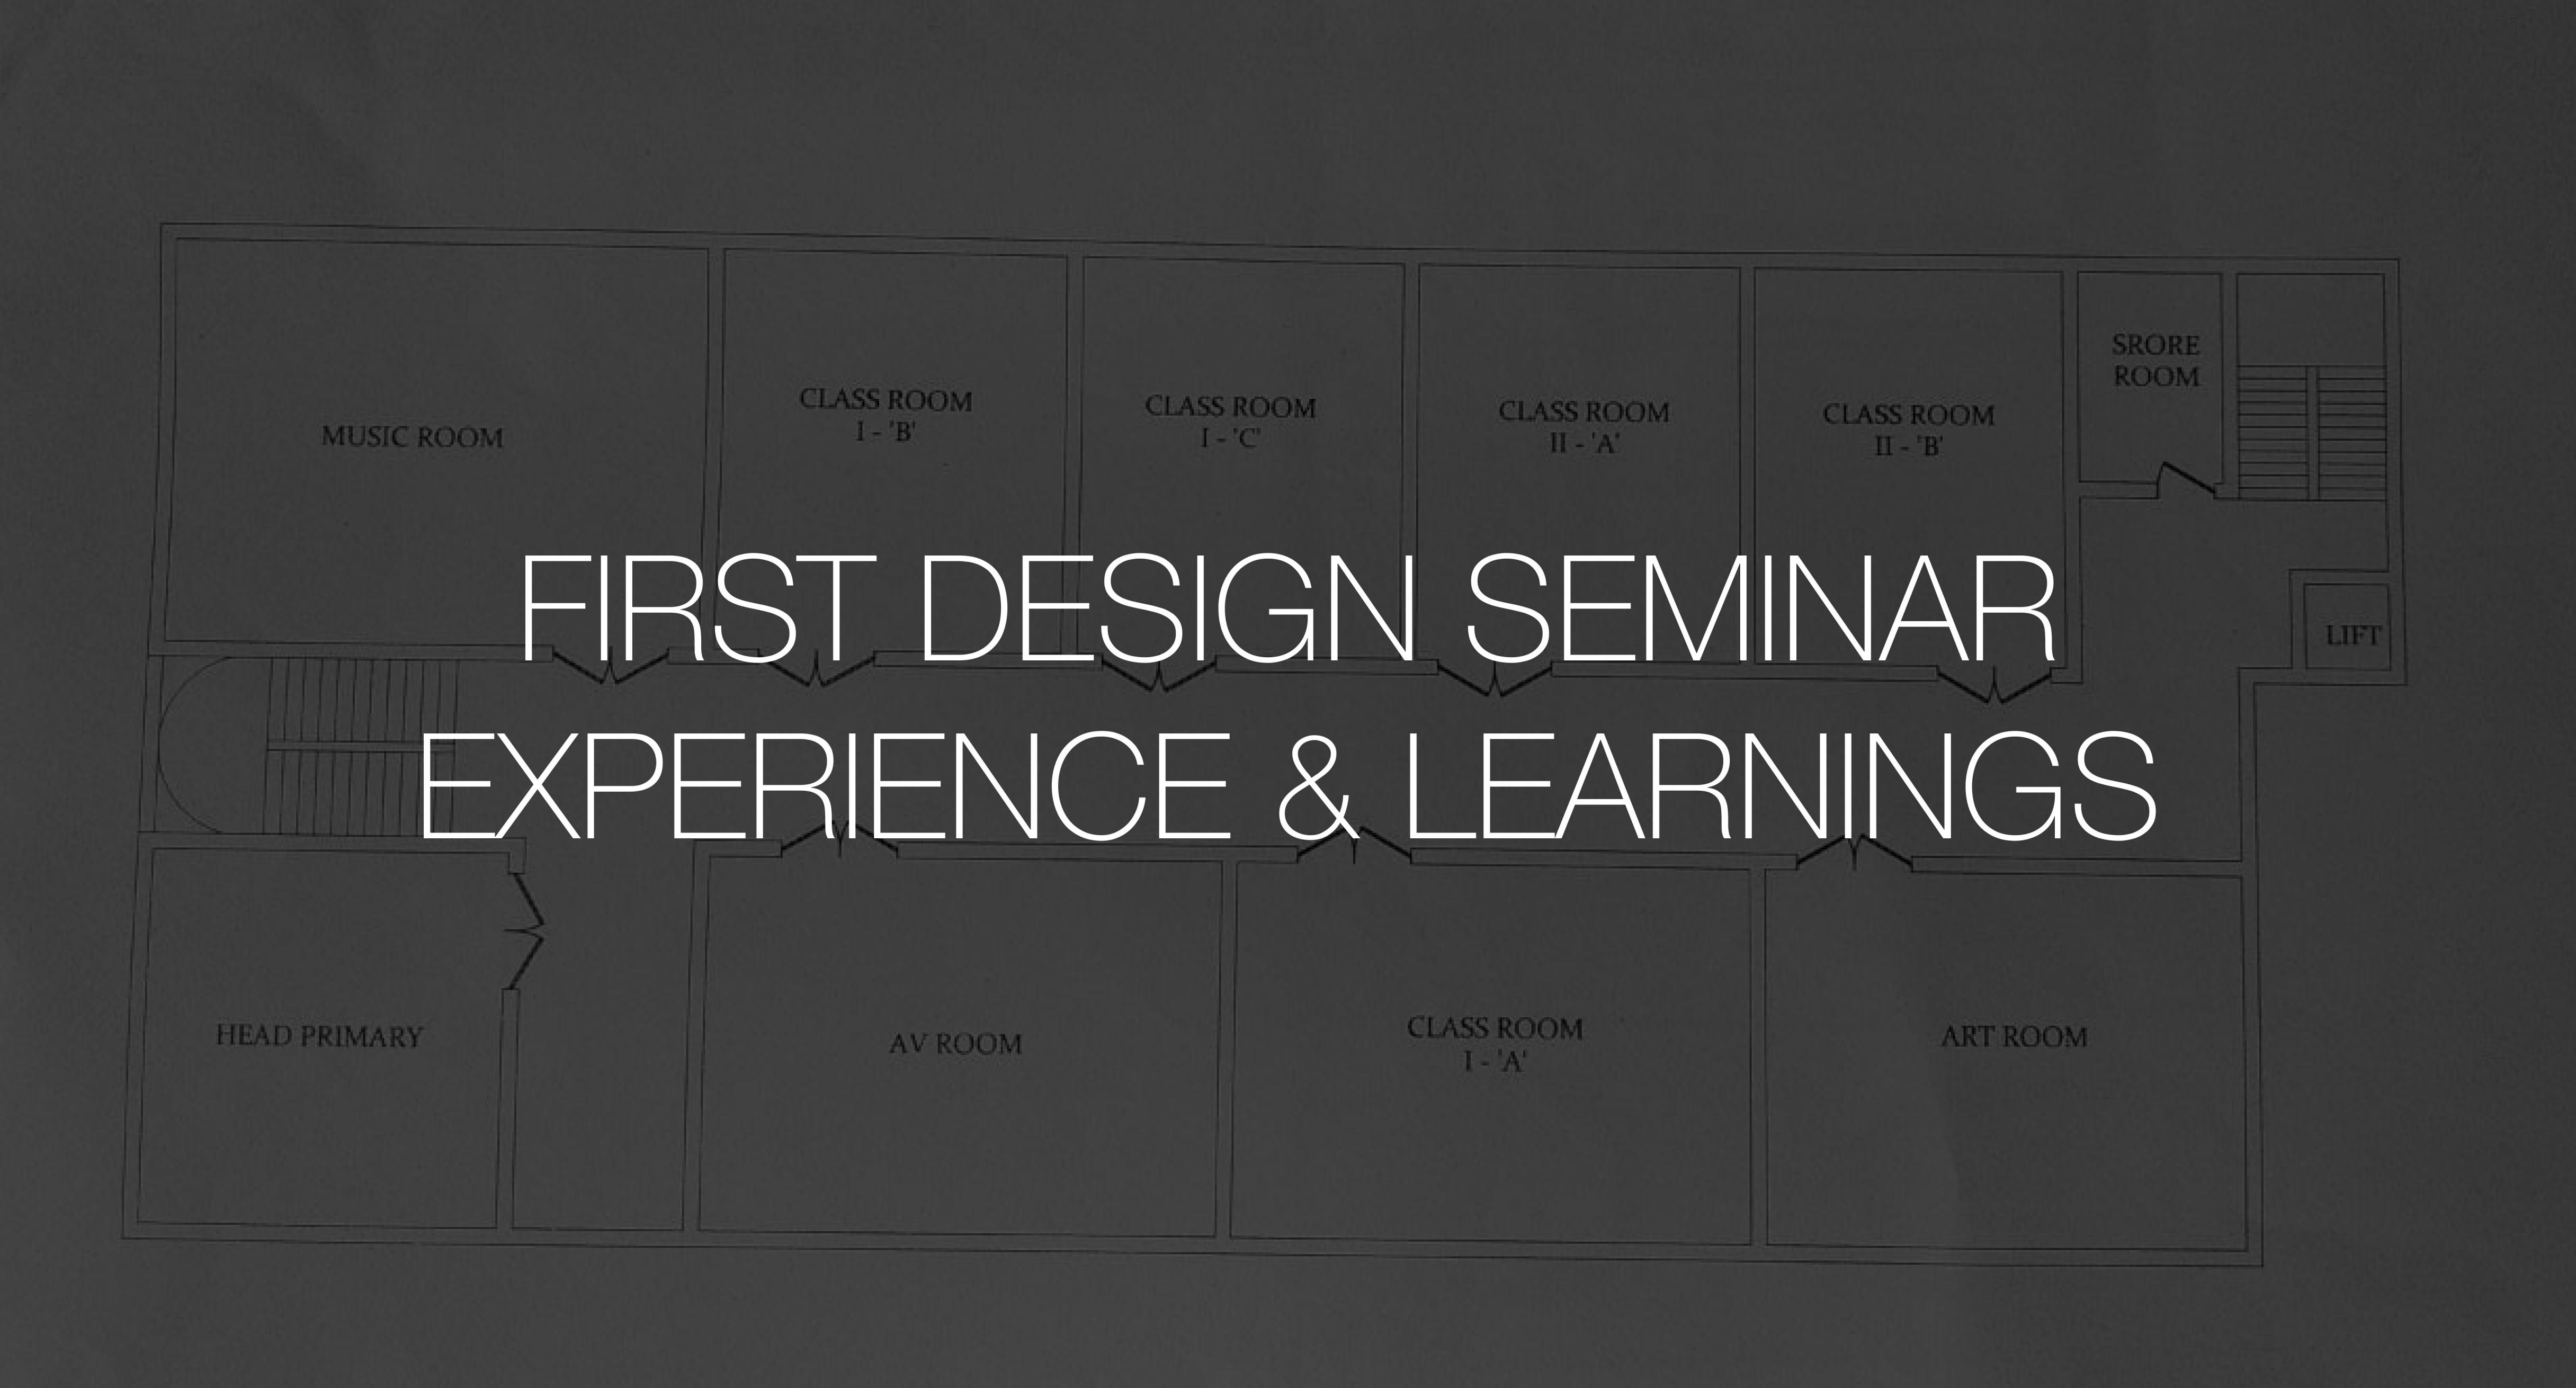

# POTTERY WORKSHOP EXPERIENCE

In 2021, I attended this pottery workshop in my hometown. I got to learn a lot about different kinds of clay(s) along with the process of making them into aesthetic pieces of art. Which includes the techniques of mixing, shaping & more..

# SOUVENIR FROM THE SESSION

---

In 2018, I attended an Architecture & Design seminar, within the framework of a group assignment, we had to put our imagination on paper of the interiors of a school (for rural areas). Above are the photos of first/raw impressions of the same.
